Searching Heavens Vault A Magical Fantasy:

Searching Heaven's Vault Don Beach, 2002-04-22 Merlin's enchanted Magic Wand is stolen by an evil magician who desires to be the greatest sorcerer in the universe. Merlin goes on a quest through time and space in his search for his wonderful Magic Wand. This quest involves many exciting adventures in all types of fabulous situations. Houdini gets into the action, the Magic Castle is included, and there is even an episode involving Thayer's one of the world's great magic shops. It's a humorous fantasy on magic.

Hymn to Perpetual Light Don Beach, 2006-03 Hymn to Perpetual Light A Transcendental Comedy in Six Cantos makes use of Spenserian Stanzas and free verse to describe God's salvation of a world gone astray through Primal Sin. Beginning with theological and philosophical observations about God's relationship to his creation, poet Don Beach compares enlightenment to a spiritual journey. This would be from the darkness of a cave-like existence, ignorance, and unawareness similar to Plato's Allegory of the Cave to the bright light of reality and redemption through God's divine love and compassion. Fortunately, some cave dwellers aren't incorrigible or sinful beyond redemption; they are more likely to be confused and misguided. This in turn causes them to be detached from truth, beauty, and God's redeeming love. But the poet shows us that every person can be saved by traveling the challenging road to enlightenment and salvation that he describes in Hymn to Perpetual Light.

The Dangerous Philosophies of Michael Jackson Elizabeth Amisu, 2016-09-26 An essential companion to Michael Jackson's music, films, and books, this work offers 21 original academic essays on all things Jackson, from film, music, and dance to fashion, culture, and literature. Going well beyond the average celebrity biography, this comprehensive book looks at why Jackson is regarded as one of the most important musicians of our time, offering insights into every facet of his art, life, and artistic afterlife. It looks at the methods by which his work was created, presented, received, and appropriated; discusses Jackson's varied personas along with his public and private appearances, albums, conceptual art, short films, and dance; and considers his use of costume, makeup, and reinvention. To help readers understand the phenomenon that was and is Michael Jackson, the book focuses on Jackson's historical context through an analysis of his films, songs, and books, examining him as an artist and shedding light on the political and ideological debates that surrounded him. Not shying away from the controversial aspects of Jackson's life and legacy, it also tackles questions of sexuality and racism, gender, and class, comparing Jackson to artists ranging from J.S. Bach to Andy Warhol. Through its examination of Jackson's entire catalog, the work connects all the aspects of his art and life to exemplify and explain the performer's unparalleled influence in the 20th and 21st centuries.

Heaven and Earth in Ancient Greek Cosmology Dirk L. Couprie, 2011-03-23 In Miletus about 550 B.C. together with our world picture cosmology was born. This book tells the story. In Part One the reader is introduced to the archaic world picture of a flat earth with the cupola of the celestial vault onto which the celestial bodies are attached. One of the subjects treated in that context is the riddle of the tilted celestial axis. This part also contains an extensive chapter on archaic astronomical instruments. Part Two shows how Anaximander 610-547 B.C. blew

up this archaic world picture and replaced it by a new one that is essentially still ours He taught that the celestial bodies orbit at different distances and that the earth floats unsupported in space This makes him the founding father of cosmology Part Three discusses topics that completed the new picture described by Anaximander Special attention is paid to the confrontation between Anaxagoras and Aristotle on the question whether the earth is flat or spherical and on the battle between Aristotle and Heraclides Ponticus on the question whether the universe is finite or infinite
