A Phoenix in the Ashes John Hull Mollenkopf, 2021-04-13 In the years following its near bankruptcy in 1976 until the end of the 1980s New York City came to epitomize the debt driven deal oriented economic boom of the Reagan era Exploring the interplay between social structural change and political power during this period John Mollenkopf asks why a city with a large minority population and a long tradition of liberalism elected a conservative mayor who promoted real estate development and belittled minority activists Through a careful analysis of voting patterns political strategies of various interest groups and policy trends he explains how Mayor Edward Koch created a powerful political coalition and why it ultimately failed

The Dying City Brian L. Tochtermann, 2017-05-08 In this eye opening cultural history Brian Tochtermann examines competing narratives that shaped post World War II New York City As a sense of crisis rose in American cities during the 1960s and 1970s a period defined by suburban growth and deindustrialization no city was viewed as in its death throes more than New York Feeding this narrative of the dying city was a wide range of representations in film literature and the popular press representations that ironically would not have been produced if not for a city full of productive possibilities as well as challenges Tochtermann reveals how elite culture producers planners and theorists and elected officials drew on and perpetuated the fear of death to press for a new urban vision It was this narrative of New York as the dying city Tochtermann argues that contributed to a burgeoning and broad anti urban political culture hostile to state intervention on behalf of cities and citizens Ultimately the author shows that New York's decline and the decline of American cities in general was in part a self fulfilling prophecy bolstered by urban fear and the new political culture nourished by it
