Seasons of Singleness Rhunda Armstead, 2023-11-17

I have often heard being single described as a season in life that will pass over time. To imply this implies that singleness occurs as a pattern of events that come and go based on an allotted set of time, a season. Having been single all my adult life, I began to challenge that theory. First seasons are reoccurring without a known end to the recurrence. Second seasons are predictive and start and end times are usually defined. Third seasons only last for a specified amount of time. Based on my personal experience, this does not

describe singleness While in my place of singleness I have found myself going through several cycles that are recurrent predictive and last for allotted periods of time These are the seasons of singleness As with climate and culture seasons I have learned that I must prepare adapt and adjust for the seasons I encounter while in my place of singleness
