Trauma and Expressive Arts Therapy Cathy A. Malchiodi, 2020-03-27 Psychological trauma can be a life changing experience that affects multiple facets of health and well being The nature of trauma is to impact the mind and body in unpredictable and multidimensional ways It can be a highly subjective that is difficult or even impossible to explain with words It also can impact the body in highly individualized ways and result in complex symptoms that affect memory social engagement and quality of life While many people overcome trauma with resilience and without long term effects many do not Trauma s impact often requires approaches that address the sensory based experiences many survivors report The expressive arts therapy the purposeful application of art music dance movement dramatic enactment creative writing and imaginative play are largely non verbal ways of self expression of feelings and perceptions More importantly they are action oriented and tap implicit embodied experiences of trauma that can defy expression through verbal therapy or logic Based on current evidence based and emerging brain body practices there are eight key reasons for including expressive arts in trauma intervention covered in this book 1 letting the senses tell the story 2 self soothing mind and body 3 engaging the body 4 enhancing nonverbal communication 5 recovering self efficacy 6 rescripting the trauma story 7 making meaning and 8 restoring aliveness

Bereavement and Support Marylou Hughes, 2013-11-12 In the early 1970s bereavement support groups were almost unknown However the obvious benefits of the group process for recovery the mutual support and understanding that helps mourners to a better outlook has created a demand for people who can organise and facilitate these groups Addressing the basis and need for support groups for the bereaved this book presents a theoretical overview examines benefits and variety of support groups structured and unstructural special populations and specifics for initiating organising and running them such as publicity It differs from other treatments in that theory and practice are moulded into a how to approach with all procedures presented equally for

the widest range of choices Also included is a comprehensive book bibliography for adults children children s helpers and parents This text is intended to be of use as a resource for professionals in the field of thanatology including psychologists psychiatrists gerontologists therapists group counsellors hospice workers educators funeral home directors home health employees hospital staff and volunteer organisations that work with survivors
