Avian Ecology and Conservation in an Urbanizing World John M. Marzluff,Reed Bowman,Roarke Donnelly,2012-12-06 One of the most striking and persistent ways humans dominate Earth is by changing land cover as we settle a region Much of our ecological understanding about this process comes from studies of birds yet the existing literature is scattered mostly decades old and rarely synthesized or standardized The twenty seven contributions authored by leaders in the fields of avian and urban ecology present a unique summary of current research on birds in settled environments ranging from wildlands to exurban rural to urban Ecologists land managers wildlife managers evolutionary ecologists urban planners landscape architects and conservation biologists will find our information useful because we address the conservation and evolutionary implications of urban life from an ecological and planning perspective Graduate students in these fields also will find the volume to be a useful summary and synthesis of current research extant literature and prescriptions for future work All interested in human driven land cover changes will benefit from a perusal of this book because we present high altitude photographs of each study area **Washington Public Documents** Washington (State).,1909 **Myth and Geology**

Luigi Piccardi,W. Bruce Masse,2007 This book is the first peer reviewed collection of papers focusing on the potential of myth storylines to yield data and lessons that are of value to the geological sciences Building on the nascent discipline of geomythology scientists and scholars from a variety of disciplines have contributed to this volume The geological hazards such as earthquakes tsunamis volcanic eruptions and cosmic impacts that have given rise to myths are considered as are the sacred and cultural values associated with rocks fossils geological formations and landscapes There are also discussions about the historical and literary perspectives of geomythology Regional coverage includes Europe and the Mediterranean Afghanistan Cameroon India Australia Japan Pacific islands South America and North America Myth and Geology challenges

the widespread notion that myths are fictitious or otherwise lacking in value for the physical sciences BOOK JACKET
