Man Is A Little World:

The Wonders of the Little World Or a General History of Man Nathaniel Wanley,1678 *Earle's Microcosmography*, ed. by A.S. West John Earle,1897 **The Secret Teachings Of All Ages** Manly P Hall,1973 **The Triumph of Augustan Poetics** Blanford Parker,1998-06-11 The Triumph of Augustan Poetics offers an important re evaluation of the transition from Baroque to Augustan in English literature Starting with Butler s Hudibras Blanford Parker describes Augustan satire as a movement away from the controversial disputation of the seventeenth century to a general satire which ridicules Protestant Anglican and Catholic in equal measure as well as the poetic traditions that supported them Once the dominant forms of late medieval and Baroque thought analogical and fideist a fully symbolic world and an empty wilderness were erased a novel space for the imagination was created Here a literalism new to European thought can be seen to have replaced the general satire and at this moment Pope and Thomson create a new art of natural and quotidian description in parallel with the rise of the novel Parker s account concludes with the ambiguous or hostile reaction to this new mode seen in the works of Samuel Johnson and others **Spiritual Reflections for Every Day in the Year. With Morning and Evening Prayers. Vols. 1&2 by T. G. Vols. 3&4 by D. G. Goyder** Thomas GOYDER,1854 *An Index to the Remarkable Passages and Words Made Use of by Shakspeare* Samuel Ayscough,1827 **The Young Man's Book of Elegant Prose** ,1853 Shakspeare's Dramatic Works William Shakespeare,Samuel Ayscough,1791 *A Preface to Donne* James Winny,2014-06-06 Probably the most famous of the Metaphysical poets John Donne worked with and influenced many of the leading poets of the age This excellent introduction to his life and works sets his writing firmly in the context of his times Paracelsus Paracelsus,2021-10-12 The enigmatic sixteenth century Swiss physician and natural philosopher Philippus Aureolus Theophrastus Bombastus von Hohenheim called Paracelsus is known for the almost superhuman energy with which he produced his innumerable writings for his remarkable achievements in the development of science and for his reputation as a visionary not to mention sorcerer and alchemist Little is known of his biography beyond his legendary achievements and the details of his life have been filled in over the centuries by his admirers This richly illustrated anthology presents in modernized language a selection of the moral thought of a man who was not only a self willed genius charged with the dynamism of an impetuous and turbulent age but also in many ways a humble seeker after truth who deeply influenced C G Jung and his followers The Pictorial Edition of the Works of Shakspeare.
