F. Scott Fitzgerald's Fiction John T. Irwin, 2014-03-28 A personal interpretation of one of America's most important writers Fitzgerald's work has always deeply moved me writes John T Irwin And this is as true now as it was fifty years ago when I first picked up *The Great Gatsby* I can still remember the occasions when I first read each of his novels remember the time place and mood of those early readings as well as the way each work seemed to speak to something going on in my life at that moment Because the things that interested Fitzgerald were the things that interested me and because there seemed to be so many similarities in our backgrounds his work always possessed for me a special personal authority it became a form of wisdom a way of knowing the world its types its classes its individuals In his personal tribute to Fitzgerald's novels and short stories Irwin offers an intricate vision of one of the most important writers in the American canon The third in Irwin's trilogy of works on American writers *F. Scott Fitzgerald's Fiction* resonates back through all of his previous writings both scholarly and poetic returning to Fitzgerald's ongoing theme of the twentieth century American protagonist's conflict between his work and his personal life This conflict is played out against the typically American imaginative activity of self creation an activity that involves a degree of theatrical ability on the protagonist's part as he must first enact the role imagined for himself which is to say the self he means to invent The work is suffused with elements of both Fitzgerald's and Irwin's biographies and Irwin's immense erudition is on display throughout Irwin seamlessly ties together details from Fitzgerald's life with elements from his entire body of work and considers central themes connected to wealth class work love jazz acceptance family disillusionment and life as theatrical performance
