**Getting to Resolution** Stewart Levine, 2010 Our current models for ending conflict don't really work They waste incredible amounts of time money and energy and take an enormous emotional toll on participants The parties remain embittered relationships are destroyed and often the conflict just reappears later in a different form In this second edition of his classic book Stewart Levine offers a revolutionary alternative approach that goes beyond compromise and capitulation to provide a satisfactory resolution for everyone involved Marriages run amuck neighbors at odds with one another business deals gone sour and the pain and anger caused by corporate downsizing are just a few of the conflicts he addresses The new edition has been thoroughly revised with new examples new tools new material about building trust and virtual collaboration as well as a more global outlook Levine rejects the adversarial legal model If both sides are unhappy you probably have a good settlement Resolution he shows provides relief and completeness for both sides No one goes away unhappy Effective resolution stops anger and resentment cold drastically cutting the emotional cost and allowing both sides to return to productive satisfying functional relationships Getting to Resolution outlines the ten principles underlying this new approach what Levine calls resolutionary thinking Levine provides a detailed seven step process for using this new mindset to resolve conflicts in a way that fosters dignity and integrity optimizes resources and allows all concerns to be voiced honored and woven into the resolution Levine's model has a thirty five year track record It has been developed implemented tested and proven in business personal and governmental contexts Getting to Resolution will enable readers to shift from thinking about problems fighting and breakdowns to thinking about collaboration engagement learning creativity and the opportunity for creating enduring value Proceedings of the Academy of Natural Sciences of Philadelphia Academy of Natural Sciences of Philadelphia, 1875 Publications of the Academy of Natural Sciences of Philadelphia v 53 1901 p 788 794 *The Bee Keepers' Review*, 1894 **Law of Landlord and Tenant, and of Hotel-keeper and Guest, with the Cantonment Code 1899,**
