Handbook on Decision Support Systems 1 Frada Burstein, Clyde W. Holsapple, 2008-01-22

Decision support systems have experienced a marked increase in attention and importance over the past 25 years. The aim of this book is to survey the decision support system (DSS) field covering both developed territory and emergent frontiers. It will give the reader a clear understanding of fundamental DSS concepts, methods, technologies, trends and issues. It will serve as a basic reference work for DSS research, practice and instruction. To achieve these goals, the book has been designed according to a ten-part structure divided in two volumes with chapters authored by well-known, well-versed scholars and practitioners from the DSS community.

Management Information Systems : Made Easy Dr.

Padmakar Shahare I, Dr. Ajay Pethe I, Dr. Mukul Burghate, Rapid globalization coupled with the growth of the Internet and Information Technology (IT) has led to a complete transformation in the way businesses or organizations function today. This has not only affected the management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer-driven and e-business is gaining popularity. Traditional means of communication, correspondence have given way to online dealings, e-mails and chats. With such a radical shift in the approach to doing business came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well-structured system used by organizations for the collection, storage, processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources: people, technology and information or decision making. It is in this context a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case-based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented study material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for in-depth knowledge.
