Nautical Research Journal, 2002 *Ships Monthly*, 2002 **The Woodenboat**, 2005 **Model Shipwright 120** John Bowen, 2003-02-19 This quarterly journal since its launch in 1972 has been regarded as the world's leading ship modelling publication. The mixture of articles, reviews, news and comment from modelmakers world wide provides the best and most detailed information available anywhere and is enhanced with authentic plans, clear diagrams and many photographs. Although the miniature ships are the most important feature of the journal, with articles explaining how individual models were researched and constructed, the other aspects of model making have not been forgotten: dioramas, modelling techniques, tools and recent events are all covered. Each issue of the journal comes complete with a free large scale modeller's draught with accompanying modelling notes, illustrations and specifications for a featured vessel. *Ship Modeling from Stem to Stern* Milton Roth, 1988-02-22 Introduces useful tools and techniques, discusses kits, plans and work areas and covers painting, glues, hull construction, decks, masts, rigging, fittings, sails and metal parts. *Catalogue of the Naval Models in the South Kensington Museum* South Kensington Museum, 1865 **The Mariner's Mirror** Leonard George Carr Laughton, Roger Charles Anderson, William Gordon Perrin, 1921 **Army and Navy Chronicle, and Scientific Repository**, 1840

[British Warships in the Age of Sail, 1603-1714](#) Rif Winfield, 2010-03-10 The 1st volume in this comprehensive reference series details the design and employment of British warships in the 17th and early 18th centuries. During the seventeenth century, Britain transformed from a minor state into a global economic power with the largest navy in the world. The character of this navy was forged by a bloody civil war, three fiercely disputed conflicts with the Dutch and the first of many wars with the French. In the process, British naval ships evolved from the galleons that had defeated the Spanish Armada to prestige vessels like HMS *Sovereign of the Seas* and the lightly built frigates of the Commonwealth era. This detailed and authoritative reference volume outlines the history of every ship built, purchased or captured that saw naval service during this era. Like its companion volumes, the book is organized by Rate classification and class. The technical and building data of each ship is followed by a concise summary of its career. With its unique depth of
