Laboring On Wendy Simonds, Barbara Katz Rothman, Bari Meltzer Norman, 2013-10-23

Facing the polar forces of an epidemic of Cesarean sections and epidurals and home like labor rooms American birth is in transition Caught between the most extreme medicalization best seen in a Cesarean section rate of nearly 30 percent and a

rhetoric of women's choices and the natural women and their midwives, doulas, obstetricians, and nurses labor on. *Laboring On* offers the voices of all of these practitioners, all women trying to help women as they struggle with this increasingly split vision of birth. Updating Barbara Katz Rothman's now classic *In Labor*, the first feminist sociological analysis of birth in the United States, *Laboring On* gives a comprehensive picture of the ever-changing American birth practices and often conflicting visions of birth practitioners. The authors deftly weave compelling accounts of birth work by midwives, doulas, obstetricians, and nurses into the larger sociohistorical context of health care practices and activism and offer provocative arguments about the current state of affairs and the future of birth in America. *MotorBoating*, 1914-02 [Introduction to Text Analytics](#) Emily Ohman, 2024-11-01 This easy-to-follow book will revolutionise how you approach text mining and data analysis as well as equipping you with the tools and confidence to navigate complex qualitative data. It can be challenging to effectively combine theoretical concepts with practical real-world applications, but this accessible guide provides you with a clear step-by-step approach. Written specifically for students and early career researchers, this pragmatic manual will contextualise your learning with real-world data and engaging case studies. Encourage the application of your new skills with reflective questions. Enhance your ability to be critical and reflective when dealing with imperfect data. Supported by practical online resources, this book is the perfect companion for those looking to gain confidence and independence whilst using transferable data skills. [Workbook Serious Business](#) Stephan Heinrich, 2016-03-23 Additional Workbook for Serious Business: separate worksheets for each chapter that will help you to improve your business. The traditional sales professional is a thing of the past. Today people are increasingly selling independently, be it a product, a service, or their own image. Everybody's looking for a good deal. But how does it work? Different than you might think, says Stephan Heinrich. People don't want to be persuaded. Instead, they want to negotiate at eye level. That's why this book won't reveal how to create interest, but rather how to locate interest that is already there. Furthermore, how to put your decision maker into a position to decide reasonable. For a purchase, for a project, for an investment, or for a cooperation. Making your business connections profitable in the long term. *The American Magazine*, 1914 *Exploring Mathematical Modeling with Young Learners* Jennifer M. Suh, Megan H. Wickstrom, Lyn D. English, 2021-06-01 This book conceptualizes the nature of mathematical modeling in the early grades from both teaching and learning perspectives. Mathematical modeling provides a unique opportunity to engage elementary students in the creative process of mathematizing their world. A diverse community of internationally known researchers and practitioners share studies that advance the field with respect to the following themes: The Nature of Mathematical Modeling in the Early Grades; Content Knowledge and Pedagogy for Mathematical Modeling; Student Experiences as Modelers; Teacher Education and Professional Development in Modeling. Experts in the field provide commentaries that extend and connect ideas presented across chapters. This book is an invaluable resource in illustrating what all young children can achieve with mathematical modeling and how we can support teachers and families in this
