research and experimentation Modernism was in the words of its principal prophet M rio de Andrade a rupture a revolt against the national intelligence In time it became a national affirmation that resulted in the integration of Brazilian literature into the literature of the Western world an integration too long overlooked by members of the English speaking community The literary revolution thus unleashed in 1922 in Latin America s largest country is the subject of this book by Nist Initially fostered by the Brazilian poets in response to new challenges in painting sculpture architecture and music the Modernist Movement has passed through four clear phases which are traced by the author first the destructive and iconoclastic phase 1922 1930 second the serious and socially concerned phase 1930 1940 third the aesthetically formal phase 1940 1950 fourth the Concretist experimental phase 1950 to the mid 1960s With similar competence Nist examines the fourfold achievement sought by these same poets 1 a new age of humanity as well as a new artistic attitude 2 a new aesthetic purity 3 the termination of the divorce between humanity and nature artist and human 4 the discovery and establishment of a common ground between culture and spontaneity tradition and originality social and natural reality In addition to presenting the origin and evolution of the Modernist Movement from a historical perspective the author pays critical attention to the artistic achievements of the leading poets of twentieth century Brazil M rio de Andrade Oswald de Andrade Manuel Bandeira Jorge de Lima Cassiano Ricardo Carlos Drummond de Andrade Cec lia Meireles Vin cius de Moraes Augusto Frederico Schmidt Murilo Mendes Jo o Cabral de Melo Neto Domingos Carvalho da Silva and others of similar stature
