Dark Humour and Social Satire in the Modern British Novel L. Colletta, 2003-09-30 Colletta uses psychoanalytic theories of joke work and gallows humour to argue that dark humour is an important defining characteristic of Modernism She brings together the usual suspects alongside more often overlooked writers from the period and asks probing questions about the relationship between a dark humour that revels in the non rational the unstable and the fragmented and resists easy definition and political usefulness and the historical and social circumstances of the period Colletta makes a compelling argument that probing deeply into the nature of humour or satire that define these social comedies brings to light a more complex and more accurate understanding of the social changes and historical circumstances that define the modern era

Evading Class in Contemporary British Literature L. Driscoll, 2009-06-22 This trenchant book argues that the cultural attempt to erase class during the period from Margaret Thatcher to Tony Blair has only generated its return as a troubling subterranean element in British literature and theory Driscoll critiques the way postmodern theory idealizes contemporary British literature as a space of fluid flexible decentered subjects arguing that beneath this ideology are clear evasions of class Offering critical readings of canonized middle class authors from Martin Amis to Graham Swift Driscoll makes the compelling argument that the contemporary British novel assisted by class blind postmodern literary theory consistently works to control the problem of class Postmodernism and Notions of National Difference Geoffrey Lord, 2024-08-26 Postmodernism and Notions of National Difference examines the critical construction of postmodern fiction raising the question of whether the construction of postmodernism has sufficiently accounted for national difference Geoffrey Lord argues that current meta national conceptions of postmodernism need serious reconsideration to take national cultural contexts into account Through a comparative investigation of the theoretical debate literary traditions and close textual reading of a number of postmodern texts Lord makes a persuasive case for his broad claim that national cultural differences are more persistent and powerful than usually allowed by established theories of postmodernity which claim a general collapse of traditional cultural orders and the meta narratives that justify them **Michael Young, Social Science, and the British Left, 1945-1970** Lise Butler, 2020-09-02 In post war Britain left wing policy maker and sociologist Michael Young played a major role in shaping British intellectual political and cultural life using his study of the social sciences to inform his political thought In the mid twentieth century the social sciences significantly expanded and played a major role in shaping British intellectual political and cultural life Central to this intellectual shift was the left wing policy maker and sociologist Michael Young As a Labour Party policy maker in the 1940s Young was a key architect of the Party's 1945 election manifesto Let Us Face the Future He became a sociologist in the 1950s publishing a classic study of the East London working class Family and Kinship in East London with Peter Willmott in 1957 which he followed up with a dystopian satire The Rise of the Meritocracy about a future society in which social status was determined entirely by intelligence Young was also a prolific social innovator founding or inspiring dozens of organisations including the Institute of Community Studies the Consumers Association Which magazine the Social Science Research Council and the Open University Moving between politics social science and activism Young believed that disciplines like sociology psychology and anthropology could help policy makers and politicians understand human nature which in turn could help them to build better political and social

institutions This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young Drawing on Young s prolific writings and his intellectual and political networks it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships family and community Showing that the social sciences were embedded in the project of social democratic governance in post war Britain it argues that historians and scholars should take their role in British politics and political thought seriously
