Lawrence S Wrightsman Book Award given by the American Psychology Law Society Bridges family law and current psychological research to shape understanding of legal doctrine and policy Family law encompasses legislation related to domestic relationships marriages parenthood civil unions guardianship and more No other area of law touches so closely to home or is changing at such a rapid pace in fact family law is so dynamic precisely because it is inextricably intertwined with psychological issues such as human behavior attitudes and social norms However although psychology and family law may seem a natural partnership both fields have much to learn from each other Our laws often fail to take into account our empirical knowledge of psychology falling back instead on faulty assumptions about human behavior This book encourages our use of psychological research and methods to inform understandings of family law It considers issues including child custody intimate partner violence marriage and divorce and child and elder maltreatment For each topic discussed Eve Brank presents a case statute or legal principle that highlights the psychological issues involved illuminating how psychological research either supports or opposes the legal principles in question and placing particular emphasis on the areas that are still in need of further research The volume identifies areas where psychology practice and research already have been or could be useful in molding legal doctrine and policy and by providing psychology researchers with new ideas for legally relevant research

Marriage Proposals Anita Bernstein, 2008-12-01 The essays in Marriage Proposals envision a variety of scenarios in which adults would continue to join themselves together seeking permanent companionship and sustenance linking sexual intimacy to a long commitment usually caring for each other and building new families What would disappear are the legal consequences associated with marriage No joint income tax return no immigration privileges like the fiancé visa or the right to bring in a husband or wife no special statuses for prison visits or hospital decisions no prerogative to remain silent in court by claiming confidential marital communications no pension entitlements no marital benefits and detriments regarding criminal or civil liability The anthology makes a unique contribution amid the two marriage furors of the day same sex marriage and the Bush Administration's marriage movement that marrying is good and more marriages would be better for society Abolishing the legal category of marriage is the only policy suggestion in current American discourse that speaks to both causes Activists on both sides of the same sex marriage fight along with marriage movement partisans all seek improvement through law reform Marriage Proposals gives them a viable reform abolition of marriage as a legal status for fighting battles in the courtroom and the streets Contributors include Anita Bernstein Peggy Cooper Davis Martha Albertson Fineman Linda C McClain Marshall Miller Lawrence Rosen Mary Lyndon Shanley and Dorian Solot

Resolving Family Conflicts Jane Murphy, 2017-03-02 Over the past two decades virtually all areas of family law have undergone major doctrinal and theoretical changes from the definition of marriage to the financial and parenting consequences of divorce to the legal construction of parenthood An equally important set of changes has transformed the resolution of family disputes This paradigm shift in family conflict resolution has reshaped the practice of family law and has fundamentally altered the way in which disputing families interact with the legal system Moreover the changes have important implications for the way that family law is understood and taught This volume examines the contours of this paradigm shift in family conflict resolution and explores its implications for family law scholarship and practice The interdisciplinary compilation includes contributions from lawyers legal academics social scientists and mental health professionals As the articles in the volume demonstrate the transformation in family conflict resolution holds considerable promise for disputing families but it also raises a number of challenges These challenges include concerns about the institutional competence of courts the surrender of fact finding and decision making to individuals without legal training the loss of autonomy and privacy for family members subject to continuing court oversight and the disjunction between problem solving justice and authoritative legal norms By exploring both the promise of the new paradigm and its potential pitfalls this volume engages family law scholars and offers insights to judges practitioners and policy makers responsible for serving families in conflict

Beyond Straight and Gay Marriage Nancy D. Polikoff, 2008 Part of the Queer Ideas series edited by Michael Bronski QUEER IDEAS a new series of LGBT hardcovers that address important intellectual questions facing the movement The debate over marriage equality for same sex couples rages across the country Beyond Straight and Gay Marriage boldly moves the discussion forward by focusing on the larger more fundamental issue of marriage and the law The root problem asserts law professor and LGBT rights activist Nancy Polikoff is that marriage is a bright dividing line between those relationships that legally matter and those that don't A woman married to a man for nine months is entitled to Social Security survivor's benefits when he dies a woman living for nineteen years with a man or woman to whom she is not married receives nothing Polikoff reframes the debate by arguing that all family relationships and households need the economic stability and emotional peace of mind that now extend only to married couples Unmarried couples of any sexual orientation single parent households extended family units and myriad other familial configurations need recognition and protection to meet the concerns they all share building and sustaining economic and emotional interdependence and nurturing the next generation Couples should have the choice to marry based on the spiritual cultural or religious meaning of marriage in their lives asserts Polikoff While marriage equality for same sex couples is a civil rights victory she contends that no one should have to marry in order to reap specific and unique legal results A persuasive argument that married couples should not receive special rights denied to other families Polikoff shows how the law can value all families and why it must A much needed intervention in the contemporary debate about marriage and family Polikoff's argument is provocative illuminating and original John D Emilio author of *Lost Prophet The Life and Times of Bayard Rustin* Polikoff mobilizes an impressive array of legal history and contemporary court cases to show how marriage whether same sex or heterosexual has ceased to be the only place where people incur long term obligations She argues vigorously that our society needs to find new ways of determining when legally enforceable responsibilities and entitlements have accrued in interpersonal relationships Stephanie Coontz author *Marriage A History How Love Conquered Marriage* This book really matters It is brilliant and thoughtful not simply about a set of laws but as a manifesto to transform the way we

understand recognize and respect the reality of our diverse and complex family compositions Polikoff grounds her arguments in the 35 year history of social change activism in this country to construct a passionate and nuanced argument for expanding our same sex marriage activism to include all of the ways people love form families and build community Amber Hollibaugh Senior Strategist National Gay and Lesbian Task Force and author of *My Dangerous Desires A Queer Girl Dreaming her Way Home* Passionate but completely grounded in reality Polikoff challenges LGBT rights advocates to see beyond gay equality arguments and question the fundamental fairness of limiting family recognition based on marriage gay or straight It is a powerful call for social justice Nan D Hunter founder of the American Civil Liberties Union Lesbian Gay Bisexual Transgender Project and Professor of Law Brooklyn Law School A provocative and perspicuous intervention in one of the most devilish recent debates in U S law and politics

In a principled yet pragmatic analysis Polikoff mounts a compelling case against the continued grip of conjugalism on our family law and policy *Beyond Straight and Gay Marriage* challenges us
