Modern Festeszeti:

Georg Lukács and His Generation, 1900-1918 Mary Gluck, 1991 Here is Lukács among friends, lovers and peers in those important years before 1918 when he converted to Communism and Marxism at the age of 39. Lukács emerges as dramatic and psychologically complex but also as a figure whose dilemmas were echoed in the lives of other radical intellectuals who came of age during the fin de siècle period.

Modern Hungarian Painting: 1892-1919 Tamás Kieselbach, 2003

Modern Hungarian Painting: 1919-1964 Tamás Kieselbach, 2004

Desire and De-Scriptio Zsófia Bán, 2023-12-28 This volume without negating Williams' strong ties with modernism intends to dislodge this deeply ingrained critical positioning by presenting him as an overlooked figure in the emerging tradition of postmodernism. The study advances the claim that Williams clearly recognized this nascent discourse and rather than pursuing his earlier mode of writing consciously sought a new language for a rapidly changing cultural context. Drawing on wide-ranging multidisciplinary critical texts, this book will be of interest not only to Williams scholars but to all those who continue to be intrigued by the elusive boundaries between word and image as well as modernism and postmodernism.

Biocentrism and Modernism Oliver A. I. Botar, 2017-07-05 Examining the complex intersections between art and scientific approaches to the natural world, *Biocentrism and Modernism* reveals another side to the development of Modernism. While many historians have framed this movement as being mechanistic and against nature, the essays in this collection illuminate the role that nature-centric ideologies played in late nineteenth to mid twentieth century Modernism. The essays in *Biocentrism and Modernism* contend that it is no accident that Modernism arose at the same time as the field of modern biology. From nineteenth century discoveries to the emergence of the current environmentalist movement during the 1960s, artists, architects and urban planners have responded to currents in the scientific world. Sections of the volume treat both philosophic worldviews and their applications in theory, historiography and urban design. This collection also features specific case studies of individual artists including Raymond Duchamp, Villon, Paul Klee, Wassily Kandinsky and Jackson Pollock.

Luxury and the Ruling Elite in Socialist Hungary György Majtényi, 2021-11-02 After World War II a new community of elite emerged in Hungary in spite of the communist principles espoused by the government. In *Luxury and the Ruling Elite in Socialist Hungary* György Majtényi allows us a peek inside their affluence. Majtényi exposes the lavish standard of living that the higher echelon enjoyed, complete with pools, Persian rugs, extravagant furniture, servants and groundskeepers. They shopped in private stores stocked with expensive meats and tropical fruits just for them. They benefited from access to everything from books, telephone lines and international travel to hunting grounds, soccer games and even the choicest cemetery plots. But Majtényi also reveals the underbelly of such society, particularly how these privileges were used as a way of maintaining power, initiating or denying entry to party members and strengthening the very hierarchies that communism promised to abolish. Taking readers on a fascinating and often surprising look inside the manor homes and vacation villas of wealthy post World War II Hungarians.
