M. Reid, 2003-02-22 Religion and Global Culture draws together the work of a group of historians of religion who are concerned with situating the contemporary study of religion within the cultural complexity of the modern world The writing of each of the volume's contributors relates to the work of leading historian of religion Charles H Long who has identified religious meanings in the contacts and exchanges of the colonial and postcolonial periods Together with Long these scholars explore religious practices in a variety of globalized contexts chapters consider such varied subjects as the rituals of African immigrant communities in the United States the making of Mohawk sweet grass and black ash baskets the religious experience of prisoners in the Nazi holding camp of Westerbork and the regional repercussions of contemporary multi national business By locating religion in the conflicted and cooperative relationships of the colonial and postcolonial periods Religion and Global Culture calls on scholars of religion to reconfigure their interpretive stances from the perspective of the material structures of the modern globalized world *Politics as Religion* Emilio Gentile, 2020-09-01 Emilio Gentile an internationally renowned authority on fascism and totalitarianism argues that politics over the past two centuries has often taken on the features of religion claiming as its own the prerogative of defining the fundamental purpose and meaning of human life Secular political entities such as the nation the state race class and the party became the focus of myths rituals and commandments and gradually became objects of

faith loyalty and reverence Gentile examines this sacralization of politics as he defines it both historically and theoretically seeking to identify the different ways in which political regimes as diverse as fascism communism and liberal democracy have ultimately depended like religions on faith myths rites and symbols Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism Sacralized politics may be democratic in the form of a civil religion or it may be totalitarian in the form of a political religion Using this conceptual distinction and moving from America to Europe and from Africa to Asia Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions through nationalism and socialism democracy and totalitarianism fascism and communism up to the present day It is also a fascinating book for understanding the sacralization of politics after 9 11     *Unity*, 1927     *Challenges to Religions and Islam* Hamid Naseem Rafiabadi, 2007     **Contours of Canadian Thought** A.B. J. Rushdoony, 2019-08-26 Faith and Action is the complete collection of the essays of R J Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks The large volume The Roots of Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now In order to make the author s knowledge more accessible this three volume collection features some of the most extensive indexing we ve ever done including a General Index a History Index a Scripture Index a Works Cited Index and a Chalcedon Report Directory A total of 183 pages of indexing This handsome set of books is a must have for any serious library The central theme of this collection of essays is Christian Reconstruction which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God For him his central drive behind his research and writing was to move men to faith and action Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects issues and disciplines Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God these essays are replete with Rushdoony s undying faith in the victory of God in history Rushdoony s big idea was Christian Reconstruction which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self government in terms of God s law This three volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times
