Modern Oil Impressionists:

Modern Oil Impressionists Ron Ranson, 1992 **The Art of Impressionism** Anthea Callen, 2000-01-01 Drawing on scientific studies of pigments and materials artists treatises colourmen's archives and contemporary and modern accounts Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent She analyses the material constituents of oil painting and the complex processes of making entailed in all aspects of artistic production discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting studio practice and display Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them Callen argues that the real modernity of the Impressionist enterprise lies in the painters material practices BOOK JACKET

Impressionism John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history's most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **Morisot's**

A Companion to Impressionism André Dombrowski, 2028-08-14

The 21st century's first major academic reassessment of Impressionism, providing a new generation of scholars with a comprehensive view of critical conversations. Presenting an expansive view of the study of Impressionism, this extraordinary volume breaks new thematic ground while also reconsidering established questions surrounding the definition, chronology, and membership of the Impressionist movement. In 34 original essays from established and emerging scholars, this collection considers a diverse range of developing topics and offers new critical approaches to the interpretation of Impressionist art. Focusing on the 1860s to 1890s, this Companion explores artists who are well represented in Impressionist studies, including Monet, Renoir, Degas, and Cassatt, as well as Morisot, Caillebotte, Bazille, and other significant yet lesser-known artists. The essays cover a wide variety of methodologies in addressing such topics as Impressionism's global predominance at the turn of the 20th century, the relationship between Impressionism and the emergence of new media, the materials and techniques of the Impressionists, and the movement's exhibition and reception history. Part of the acclaimed Wiley-Blackwell Companions to Art History series, this important new addition to scholarship in this field reevaluates the origins, chronology, and critical reception of French Impressionism. Discusses Impressionism's account of modern identity in the contexts of race, nationality, gender, and sexuality. Explores the global reach and influence of Impressionism in Europe, the Middle East, East Asia, North Africa, and the Americas. Considers Impressionism's relationship to the emergence of film and photography in the 19th century. Considers Impressionism's representation of the private sphere as compared to its depictions of public issues such as empire, finance, and environmental change. Addresses the Impressionist market and clientele, period criticism, and exhibition displays from the late 19th century to the middle of the 20th century. Features original essays by academics, curators, and conservators from around the world, including those from France.
