Existential Threats Lisa Vox, 2017-05-12 Americans have long been enthralled by visions of the apocalypse Will the world end through nuclear war environmental degradation and declining biodiversity Or perhaps through the second coming of Christ rapture of the faithful and arrival of the Antichrist a set of beliefs known as dispensationalist premillennialism These seemingly competing apocalyptic fantasies are not as dissimilar as we might think In fact Lisa Vox argues although these secular and religious visions of the end of the world developed independently they have converged to create the landscape of

our current apocalyptic imagination In *Existential Threats* Vox assembles a wide range of media science fiction movies biblical tractates rapture fiction to develop a critical history of the apocalyptic imagination from the late 1800s to the present Apocalypticism was once solely a religious ideology Vox contends which has secularized in response to increasing technological and political threats to American safety Vox reads texts ranging from Christianity Today articles on ecology and the atomic bomb to Dr Strangelove and from Mary Shelley's *The Last Man* to the *Left Behind* series by Tim LaHaye and Jerry B Jenkins demonstrating along the way that conservative evangelicals have not been as resistant to science as popularly believed and that scientists and science writers have unwittingly reproduced evangelical eschatological themes and scenarios in their own works *Existential Threats* argues that American apocalypticism reflects and propagates our ongoing debates over the authority of science the place of religion uses of technology and America's evolving role in global politics

Voices Prophesying War Ignatius Frederick Clarke, 1992 The literature of future wars is an exciting and popular genre embracing classics such as *The War of the Worlds* and mass market bestsellers such as *The Amtrak Wars* Here sci fi meets the spy thriller the war novel meets the novel of dystopia quality fiction meets the bestseller Orwell's *Nineteen Eighty Four* Erskine Childers' *The Riddle of the Sands* and Ray Bradbury's *Fahrenheit 451* are typical in combining critical and commercial success This new edition of *Voices Prophesying War* shows how the genre developed accounts for its success and describes how it is still changing The first examples of such fiction are as much concerned with politics as with war *The Anonymous Reign of George VI* published in 1763 and set in 1918 describes the triumphant imperialism of an English monarch who still leads his troops into battle on horseback A century later the first recognizable classic of the genre *The Battle of Dorking* played on the theme of unpreparedness for war describing a Prussian invasion of the British Isles Imaginary invasions by the French Germans Americans Russians Soviets and of course Martians followed in huge numbers Throughout the nineteenth century novelists wrote with increasing sophistication on the technology of war often as in the case of Conan Doyle and H G Wells they were in advance of the generals and scientists and their prophesies were fulfilled in terrible fashion by two world wars Since the Second World War American authors have come to the fore and the nuclear age

has produced such classics as Nevil Shute's *On the Beach*. The Cold War has also given rise to a great many bestsellers some like General Sir John Hackett's *The Third World War* marking a return to an older theme of predictions of war by professional soldiers. This new edition of *Voices Prophesying War* examines recent work in detail and includes a unique checklist of all major future war fiction in English, French and German to have appeared since the eighteenth century. *Books in Print*, 1991. **Subject Guide to Books in Print**, 1971. **Books in Print Supplement**, 1985. *Forthcoming Books*. Rose Arny, 2004. **The Year's Best Fantasy and Horror: Tenth Annual Collection**. Ellen Datlow, Terri Windling, 1997-07-15. This acclaimed series winner of numerous World Fantasy Awards continues its tradition of excellence with scores of short stories from such writers as Michael Bishop, Edward Bryant, Angela Carter, Terry Lamsley, Gabriel Garcia Marquez, A. R. Morlan, Robert Silverberg, Michael Swanwick, Jane Yolen and many others. Supplementing the stories are the editors' invaluable overviews of the year in fantastic fiction, Edward Bryant's witty roundup of the year's fantasy films and a long list of Honorable Mentions, all of which adds up to an invaluable reference source and a font of fabulous reading. **All Kinds of Scary**. Jonina Anderson-Lopez, 2023-06-15. Horror fiction in literature, film and television display a wealth of potential and appeal to diverse audiences. The trope of the black man always dies first still, however, haunts the genre. This book focuses on the latest cycle of diversity in horror fiction, starting with the release of *Get Out* in 2017 which inspired a new speculative turn for the genre. Using various critical frameworks like feminism and colonialism, the book also assesses diversity gaps in horror fictions with an emphasis on marketing and storytelling methodology. Reviewing the canon and definitions of horror may point to influences for future implications of diversity which has cyclically manifested in horror fictions throughout history. This book studies works from literature, film and television while acknowledging that each of the formats are distinct artforms that complement each other. The author compares diverse representation in novels like *The Castle of Otranto*, *Frankenstein*, *Fledgling*, *Broken Monsters* and Mexican Gothic. Horror films like *Bride of Frankenstein*, *It Comes at Night*, *Us* and *Get Out* are also examined. Lastly, the author emphasizes the diverse horror fictions in television like *The Exorcist*, *Fear the Walking Dead*, *The Twilight Zone* and *Castle Rock*. **Paperbound Books in Print**, 1991.
