Robert F. Tate

Nuremburg Raid 30 31 March 1944:

The Nuremberg Raid Martin Middlebrook, 2009-06-25 A thorough history of the RAF Bomber Command attack on the German city during World War II by the author of *The First Day on the Somme* This book describes one twenty four hour period in the Allied Strategic Bomber Offensive in the greatest possible detail Author Martin Middlebrook sets the scene by outlining the course of the bombing war from 1939 to the night of the Nuremberg raid the characters and aims of the British bombing leaders and the composition of the opposing Bomber Command and German night fighter forces The aim of the Nuremberg raid was not unlike many hundreds of other Royal Air Force missions but due to the difficulties and dangers of the enemy defenses and weather plus bad luck it went horribly wrong The result was so notorious that it became a turning point in the campaign The target the symbolic Nazi rally city of Nuremberg was only lightly damaged and 96 out of 779 bombers went missing Middlebrook recreates the events of the fateful night in astonishing detail The result is a meticulous dramatic and often controversial account It is also a moving tribute to the bravery of the RAF bomber crews and their adversaries Praise for *The Nuremberg Raid* Employing hundreds of eyewitness accounts he shows the raid from the point of view of the German defenses and the civilians on the ground Factual and analytical this is a portrait of mechanized warfare at the level of personal experience Simon Mawer Wall Street Journal

Germany and the Second World War Ralf Blank, Jörg Echternkamp, Karola Fings, Jürgen Förster, Winfried Heinemann, Tobias Jersak, Armin Nolzen, Christoph Rass, 2008-07-03 The Second World War affected the lives and shaped the experience of millions of individuals in Germany soldiers at the front women children and the elderly sheltering in cellars slave labourers toiling in factories and concentration camp prisoners and POWs clearing rubble in the Reich's devastated cities Taking a history from below approach the volume examines how the minds and behaviour of individuals were moulded by the Party as the Reich took the road to Total War The ever increasing numbers of German workers conscripted into the Wehrmacht were replaced with forced foreign workers and slave labourers and concentration camp prisoners The interaction in everyday life between German civilian society and these

coerced groups is explored as is that society's relationship to the Holocaust. From early 1943 the war on the home front was increasingly dominated by attack from the air. The role of the Party administration, police and courts in providing for the vast numbers of those rendered homeless in bolstering civilian morale with miracle, revenge weapons propaganda and in maintaining order in a society in disintegration is reviewed in detail. For society in uniform the war in the east was one of ideology and annihilation with intensified indoctrination of the troops after Stalingrad. The social profile of this army is analysed through study of a typical infantry division. The volume concludes with an account of the various forms of resistance to Hitler's regime in society and the military culminating in the failed attempt on his life in July 1944.

Flying into the Flames of Hell Martin W. Bowman, 2006-09-15 The book contains twenty three stirring accounts of what life flying as air crew in World War Two was really like. The writers are a mixed bunch of pilots, navigators and gunners who flew medium and heavy bombers or Mosquitoes. It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters, catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base. It tells of the comradeship between the crew and often the humor between them which was often bred from fear. The gentle and unassuming narratives convey the sense of purpose that these men felt in doing one of the most dangerous jobs in the war. It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler's dreadful ambitions in Europe.

Military Review, 1975

The Veterans' Tale Frances Houghton, 2019-01-10 This is a unique account of the ways in which British veterans of the Second World War remembered, understood and recounted their experiences of battle throughout the post war period. Focusing on themes of landscape, weaponry, the enemy and comradeship, Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self. Houghton also identifies how veterans' memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official, scholarly and cultural representations of the Second World War in Britain. Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans and for what they tell us about the cultural identity of military life writing in post war British society.

Culture in Camouflage Patrick Deer, 2009-03-26 Examines how literary writers including Ford Madox Ford, Siegfried Sassoon, Wilfred Owen, James Hanley, Evelyn Waugh, Graham Greene and others countered the war culture promoted by mass media, war planners and military historians.

The Berlin Blitz By Those Who Were There Martin W. Bowman, 2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War. The Berlin Blitz By Those Who Were There is a compelling, gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail. The result is a coherent single story which unfolds in a straightforward and incisive narrative. This work draws attention in some detail to the major raids on the Reich.

capital by RAF Bomber Command from the late summer of 1940 to September 1943. It begins with the reliable but largely ineffective twin-engined Blenheims, Hampdens, Wellingtons and Whitleys, through to the introduction into front-line service of the four-engined heavies, the Stirling, Manchester and Halifax, which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito. On 30 January 1943, on the tenth anniversary of Hitler's usurpation of power, two formations, each of three Mosquitoes, appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels. Sir Arthur Harris, Commander in Chief RAF Bomber Command, hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable. But the Big City, as it was known to his faithful old lags, was never completely destroyed.
