

Mary had a little lamb,
Its fleece was white as snow;
And everywhere that Mary went
The lamb was sure to go.

It followed her to school one day,
That was against the rules;
It made the children laugh and play
To see a lamb at school.

And so the teacher turned it out,
But still it lingered near,
And waited patiently about
Till Mary did appear.

Why does the lamb love Mary so?
The eager children cry;
Why, Mary loves the lamb, you know,
The teacher did reply.

Pop up books possess universal appeal. Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three dimensional work of Robert Sabuda. David A Carter and other pop up book creators. Sabuda himself was inspired to become a pop up book artist after experiencing the 1972 classic pop up *The Adventures of Super Pickle*. The effect of these movable books on young minds is uniquely powerful. Besides riveting children's attention, pop up books can also help build motor skills, teach cause and effect, and develop spatial understanding of objects. Based on their direct experience and many presentations to teachers and librarians, the authors have provided template lesson plans with curriculum and standards links for using the best pop up books currently available in the instructional program of the school. The book also includes profiles of the most notable authors, a history of the format, definitions of terms such as flap book and paper engineer, and information on how to create movable books. Librarians will find the section regarding collection development with the format, how and where to acquire them, proper storage methods, and the annotated listing of the authors' 50 favorite pop ups extremely helpful.
