Unfolding Patient Stories written by the National League for Nursing are an engaging way to begin meaningful conversations in the classroom. These vignettes which open each unit feature patients from Wolters Kluwer's vSim for Nursing Gerontology co-developed with Laerdal Medical and DocuCare products; however, each Unfolding Patient Story in the book stands alone, not requiring purchase of these products. For your convenience, a list of these case studies along with their location in the book appears in the Case Studies in This Book section later in this frontmatter.

NEW Transitional Care Unfolding Case Studies which unfold across Chapters 27 through 29 to illustrate ways in which nurses can provide effective transitional care to an older adult whose progressively worsening condition requires that her needs be met in several settings. For your convenience, a list of these case studies along with their location in the book appears in the Case Studies in This Book section later in this frontmatter.

Updated unfolding case studies illustrate common experiences of older adults as they progress from young old to old old and are affected by combinations of age-related changes and risk factors. Evidence-based information is threaded through the content and summarized in boxes in clinically oriented chapters. Assessment and intervention guidelines help nurses identify and address factors that affect the functioning and quality of life of older adults. Nursing interventions focus on teaching older adults and their caregivers about actions they can take to promote wellness. Case studies include content on transitional care, interprofessional collaboration, and QSEN.
