The Poetics in its Aristotelian Context Pierre Destrée, Malcolm Heath, Dana L. Munteanu, 2020-03-18 This volume integrates aspects of the Poetics into the broader corpus of Aristotelian philosophy It both deals with some old problems raised by the treatise suggesting possible solutions through contextualization and also identifies new ways in which poetic concepts could relate to Aristotelian philosophy In the past contextualization has most commonly been used by scholars in order to try to solve the meaning of difficult concepts in the Poetics such as catharsis mimesis or tragic pleasure In this volume rather than looking to explain a specific concept the contributors observe the concatenation of Aristotelian ideas in various treatises in order to explore some aesthetic moral and political implications of the philosopher's views of tragedy comedy and related genres Questions addressed include Does Aristotle see his interest in drama as part of his larger research on human natures What are the implications of tragic plots dealing with close family members for the polis What should be the role of drama and music in the education of citizens How does dramatic poetry relate to other arts and what are the ethical ramifications of the connections How specific are certain emotions to literary genres and how do those connect to Aristotle's extended account of pathos Finally how do internal elements of composition and language in poetry relate to other domains of Aristotelian thought The Poetics in its Aristotelian Context offers a fascinating new insight to the Poetics and will be of use to anyone working on the Poetics or Aristotelian philosophy more broadly

Tragic Method and Tragic Theology Larry D. Bouchard, 2010-11 The book moves in a nonreductive way between literary and theological criticism to show how drama and religious thought discern the experience of evil. Tragic theology refers to how drama and theology render in thematic or symbolic form certain irreducible dimensions of evil and negativity. Bouchard defines no single tragic method or any single view of evil but searches for the distinctive interplay of tragic method of theology in each dramatist. The work opens by scrutinizing certain important interpretations of Greek tragedy. Paul Ricoeur's interpretation of the Wicked God and the Tragic Vision receives major focus as does Sophocles who, as a tragedian, dramatized the action of inquiry and interpretation. Bouchard then examines Augustine's views of evil and sin, Reinhold Niebuhr's critique of the ironies of history and Tillich's conceptions of the demonic. By interpreting tragedy in terms of sin or the effects of sin, each theologian resists implications in his own thought pointing to a less resolvable tragic theology. And yet these theologians also contribute very creative understandings of the irreducible character of evil and tragic experience. Substantive and original readings of three playwrights are offered: Rolf Hochhuth's tragedy of vocation *The Deputy*, Robert Lowell's trilogy of American historical blindness *The Old Glory* and Peter Shaffer's dreams of tragic awareness and accountability in *Equus* and *Amadeus*, revealing new permutations of the irreducibility of evil in contemporary Christian and Jewish religious thinkers who may be helpful in this task and concludes with a description of the experience of perplexed thought, self-critical in view of tragedy's witness to irreducibility of evil.

Art's Claim to Truth Gianni Vattimo, 2010-04-26 Following Heidegger's interpretation of the history of philosophy, Gianni Vattimo outlines the existential-ontological conditions of aesthetics, paying particular attention to the works of Kandinsky which reaffirm the ontological implications of art. Vattimo then builds on Hans Georg Gadamer's theory of aesthetics and provides an alternative to a rationalistic

positivistic criticism of art This is the heart of Vattimo's argument and with it he demonstrates how hermeneutical philosophy reaffirms art's ontological status and makes clear the importance of hermeneutics for aesthetic studies In a final section Vattimo articulates the consequences of reclaiming the ontological status of aesthetics without its metaphysical implications holding Aristotle's concept of beauty responsible for the dissolution of metaphysics itself "Pripodnimaiu Plenku Voshchenoi Bugami..." Stuart H. Goldberg, 2001 *Reference Guide to World Literature* Tom Pendergast, 2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer's life and works Work entries cover a particular piece of world literature in detail *The Ruse of Techne* Dimitris Vardoulakis, 2024-09-03 The Ruse of Techne offers a reappraisal of Heidegger's entire work by focusing on the forms of activity he regards as separate from instrumentality Non instrumental activities like authenticity poetry and thinking in short the ineffectual are critical for Heidegger as they offer the only path to the truth of being throughout his work By unearthing the source of the conception of non instrumental action in Heidegger's reading of Aristotle Vardoulakis elaborates how it forms part of Heidegger's response to an old problem namely how to account for difference after positing a single and unified being that is not amenable to change He further demonstrates that an action without ends and effects leads to an ethics and politics rife with difficulties and contradictions that only become starker when compared to other responses to the same problem that we find in the philosophical tradition and which rely on instrumentality Heidegger's conception of an action without ends or effect forgets the role of instrumentality in the tradition that posits a single unified being And yet the ineffectual has had a profound influence in how continental philosophy determines the ethical and the political since World War II The critique of the ineffectual in Heidegger is thus effectively a critique of the conception of praxis in continental philosophy Vardoulakis proposes that it is urgent to undo the forgetting of instrumentality if we are to conceive of a democratic politics and an ethics fit to respond to the challenges of high capitalism
