Conditionality & Coercion Isabela Mares, Lauren E. Young, 2019-10-17 In many recent democracies candidates compete for office using illegal strategies to influence voters In Hungary and Romania local actors including mayors and bureaucrats offer access to social policy benefits to voters who offer to support their preferred candidates and they threaten others with the loss of a range of policy and private benefits for voting the wrong way These quid pro quo exchanges are often called clientelism How can politicians and their accomplices get away with such illegal campaigning in otherwise democratic competitive elections When do they rely on the worst forms of clientelism that involve threatening voters and manipulating public benefits Conditionality and Coercion Electoral Clientelism in Eastern Europe uses a mixed method approach to understand how illegal forms of campaigning including vote buying and electoral coercion persist in two democratic countries in the European Union It argues that we must disaggregate clientelistic strategies based on whether they use public or private resources and whether they involve positive promises or negative threats and coercion We document that the type of clientelistic strategies that candidates and brokers use varies systematically across localities based on their underlying social coalitions We also show that voters assess and sanction different forms of clientelism in different ways Voters glean information about politicians personal characteristics and their policy preferences from the clientelistic strategies these candidates deploy Most voters judge candidates who use clientelism harshly So how does clientelism including its most odious coercive forms persist in democratic systems This book suggests that politicians can get away with clientelism by using forms of it that are in line with the policy preferences of constituencies whose votes they need Clientelistic and programmatic strategies are not as distinct as previous have argued Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Campbell Slavic Review **Reflections on 1989 in Eastern Europe** Terry Cox, 2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe. It offers a mix of detailed examinations of the events of 1989 in Eastern Europe, thoughtful and considered appraisals of developments, and middle range theoretical discussions of patterns of cause and effect. The authors range in their approaches from detailed examinations of government and ruling party papers from the archives, some of it originally labelled top secret, to personal observations and oral history based on interviews with participants, to analysis of survey data and official statistics. In their chosen focus, the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989, reflections and insights into the events and changing mood during 1989 itself, and examinations of some of the consequences and legacies of 1989. This book was published as a special issue of *Europe Asia Studies*.

Democratic Consolidation in East-Central Europe Fritz Plasser, Peter Ulram, Harald Waldrauch, 2016-07-27 The postcommunist regimes in East Central Europe are confronted with the double challenge of establishing a democratic order and a market economy. The book discusses the concepts of democratic consolidation and analyzes the development of attitudes towards the political and economic system in Poland, Hungary, the Czech Republic, Slovakia, and Slovenia. The study compares the political values in East Central Europe with respective attitudes in the USA and Western Europe. Special attention is given to experiences of the consolidation process in Germany, Italy, and Austria after 1945, as well as the more recent developments in Latin America and Southern Europe. The final chapter discusses patterns and paths of democratic consolidation in the light of concepts of regime change.

Radical Left Parties in Europe Luke March, 2012-03-12 What has happened to the European radical left after the collapse of the USSR? How has it reacted, reformed, even revived? This new volume is one of the first to provide an overview of the main developments in contemporary European radical left parties, those defining themselves as to the left of and not merely on the left of social democracy, which are now an increasingly visible phenomenon in European party politics. Unlike many of the existing studies, it focuses on communist and non-communist parties, addresses their non-parliamentary and international activity, and takes a pan-European perspective focusing on both Eastern and Western Europe. March focuses on key contemporary left parties, the nature of their radicalism, and their ideological and strategic positions, and overall addresses their current dynamics and immediate electoral prospects. The book argues that radical left parties are still afflicted by existential crises about the nature of socialism, and the future of communist parties in particular is under threat. The most successful left parties are no longer extremist but present themselves as defending values and policies that social democrats have allegedly abandoned, focus on pragmatism rather than ideology, and increasingly orientate themselves towards government. Providing a significant contribution to existing literature in the field, this book will be of interest to students and scholars of comparative politics, political parties, and radical politics.
