Childress and Gwendolyn Brooks and surveys the work of the visual artist Charles White She traces resonances of leftist ideas and activism in their artistic achievements and follows their balanced critique of the mainstream liberal and conservative political and literary spheres Her study recounts the targeting of African American as well as white writers during the McCarthy era reconstructs the events of the 1959 Black Writers Conference in New York and argues for the ongoing influence of the Black Popular Front decades after it folded Defining the contours of a distinctly black modernism and its far ranging radicalization of American politics and culture Washington fundamentally reorients scholarship on African American and Cold War literature and life

Labor's Canvas Laura Hapke, 2009-03-26 At an unprecedented and probably unique American moment laboring people were indivisible from the art of the 1930s By far the most recognizable New Deal art employed an endless frieze of white or racially ambiguous machine proletarians from solo drillers to identical assembly line toilers Even today such paintings particularly those with work themes are almost instantly recognizable Happening on a Depression era picture one can see from a distance the often simplified figures the intense or bold colors the frozen motion or flattened perspective and the uniformity of laboring bodies within an often naive realism or naturalism of treatment In a kind of Social Realist dance the FAP's imagined drillers haulers construction workers welders miners and steel mill workers make up a rugged industrial army In an unusual synthesis of art and working class history Labor's Canvas argues that however simplified this golden age of American worker art appears from a post modern perspective The New Deal's Federal Art Project FAP under the aegis of the Works Progress Administration WPA revealed important tensions Artists saw themselves as cultural workers who had much in common with the blue collar workforce Yet they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor's Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal's artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves
