Privatizing Government Information The Effects Of Policy On Access To Landsat Satellite Data:

Privatizing Government Information Kathleen M. Eisenbeis, 1995 a solid piece of research important certainly recommended to all in the LIS community who have any interest in government information policy LIBRARY QUARTERLY a major contribution to understanding the impact of the privatization of government information offers valuable insights that would be useful when other government information privatization schemes are examined or contemplated JOURNAL OF GOVERNMENT INFORMATION powerful it deserves to be carefully read by those who will be making future decision on U S technology and information policy JOURNAL OF ACADEMIC LIBRARIANSHIP The Impact of Information Policy Kirsti Nilsen, 2000-12-30 This book focuses on the effects of information policy While information policy studies often consider the ideology underlying policy the policy process the stakeholders and players in that process and the nature of the outcomes of policy development there have been few studies that focus on the ultimate effects of information policy This book looks at effects from two perspectives First it examines the impact of government wide information policies on a specific government agency in terms of its dissemination policies for the information it provides Secondly the effects of the ensuing agency information policies on social science research are examined The government wide policies of interest here are cost recovery and restraint initiatives imposed by the Canadian federal government in the mid 1980s The policy statements specifically identified government information as an area in which increased revenues could be generated Such de facto information policies can have a wide effect on government information production and dissemination In this book the history and background of the policies is considered and the effects were empirically examined using multiple methods of analysis The period covered is mid 1980s through mid 1990s An epilogue chapter provides information on recent policy developments in Canada and the continuing effects of the policies of the 1980s Public Sector Information in the Digital Age Georg Aichholzer, Herbert Burkert, 2004-12-20 This timely volume reviews key issues and developments in the controversial area of public sector information PSI It addresses the fundamental themes challenges and conflicts surrounding the access to and use of PSI in the new digital era Using detailed empirical analyses and case studies from across Europe and the USA the authors focus on the crucial policy economic legal and social issues The public sector is the biggest single producer and holder of information including administrative and government documents regulatory texts political data and public registers The authors demonstrate that this huge store of information is a key resource for a broad range of stakeholders such as citizens civic organisations private businesses and public sector agencies They argue that charging the marginal cost of dissemination a policy favoured in the US will lead to optimal economic growth in society and will far outweigh the immediate perceived benefits of aggressive cost recovery **Knowledge Power** Renée Marlin-Bennett, 2004 A provocative introduction to the interconnected roles of intellectual property information and privacy and the rules that govern them in our lives and our global society **The Rise of the Commercial Space Industry** Brian C. Odom, 2024-09-13 This

collection explores the evolution of the commercial space industry from the beginning of the space age through the early twenty first century Today the space industry is taking on an increased leadership and innovation role in both space access and exploration The growth of commercial space over the past decades offers a potential new paradigm for space exploration one in which industry transitions from supplier to partner However many questions remain This book seeks to bring to light these questions which span from the most seemingly consequential how will humanity explore the Moon and Mars to the most basic what is commercial space To further develop the historical context of commercial space and thereby better inform decision making at NASA in the future this volume examines a broad range of questions related to the history of commercial space operations including but not limited to how has the concept of commercial space evolved in different fields and disciplines What have been the major events and milestones in the emergence and evolution of commercial space activities in the USA and internationally How has the US Government assisted or impeded the emergence and evolution of commercial space activities Providing contributions from a range of different disciplines and backgrounds the authors of this volume offer valuable insights for scholars researching the history of space and space policy as well as decision makers working at NASA or within the wider space industry

NASA Spaceflight Roger D. Launius, Howard E. McCurdy, 2017-10-11 This book presents the first comprehensive history of innovation at NASA bringing together experts in the field to illuminate how public private and international partnerships have fueled new ways of exploring space since the beginning of space travel itself Twelve case studies trace the messy risky history of such partnerships exploring the role of AT all have challenged conventional methods of doing the public s business in space Together these essays offer new insights into how innovation happens with invaluable lessons for policymakers investors economists and members of the space community

Data Policy Issues and Barriers to Using Commercial Resources for Mission to Planet Earth Scott Pace, Molly K. Macauley, Brant Sponberg, 1999 This study assesses the data policy issues and barriers to using commercial resources to support the objectives of this program

History and Electronic Artefacts Edward Higgs, 1998 We are now entering a world of electronic communications where an increasing amount of contemporary information is created and retained only in electronic form How will such unstable flows of information be preserved for future historians Will the future have a past Will the history of our contemporary world be lost to our descendants History and Electronic Artefacts is the first publication to examine the implications of this revolution for historical research Historians are used to handling paper and parchment record in archives These are actual pieces of correspondence which passed between historical actors They are also relatively stable artefacts which can be preserved easily Two factors introduced by the electronic revolution threaten the existence of paper archives the dissociation between information content and the media by which it is transmitted ruptures the solidity of the archival object The ability to store electronic information anywhere and access it remotely via networks could make the central paper archive redundant Experts from the fields of information management and technology data archiving library

Preserving Digital Information Task Force on Archiving of Digital Information, Commission on Preservation and Access, Research Libraries Group, 1996 The 21 member Task Force on Archiving of Digital Information was formed in December 1994 and spent a year studying what is needed to make digital libraries stable accessible and valid Their final report is divided into the following sections 1 Introduction which examines the fragility of cultural memory in a digital age and the limits of digital technology 2 The Challenge of Archiving Digital Information a discussion of the obsolescence of certain digital media migration of digital information to other hardware software configurations or generations legal and institutional issues and the need for deep infrastructure 3 Information Objects in the Digital Landscape which examines the issue of integrity of digital information and stakeholder interests in that question 4 Archival Roles and Responsibilities about the operating environment migration strategies and managing costs and finances and 5 Summary and Recommendations One of the major findings of the study was that a process of certification was needed to create a climate of trust in this field of endeavor The future needs a sufficient number of people who can be trusted to go to great lengths to store migrate and provide access to digital collections A series of pilot projects and support structures are recommended Appendices include copies of the charge of the task force and of a detailed analysis of a cost model Contains 75 references BEW Air and Space Law , 1996 **Commercial Observation Satellites** John C. Featuring numerous satellite images and case studies this book brings together an impressive group of experts to assess the implications of this emerging information technology Bulletin - Association of Canadian Map Libraries Association of Canadian Map Libraries, 1997 **Bibliographic Index** , 1995 DttP , 1996 The Map in the Machine Luis F. Alvarez Leon, 2024-05-07 Digital technologies have changed how we shop work play and communicate reshaping our societies and economies To understand digital capitalism we need to grasp how advances in geospatial technologies underpin the construction operation and refinement of markets for digital goods and services In The Map in the Machine Luis F Alvarez Leon examines these advances from MapQuest and Google Maps to the rise of IP geolocation ridesharing and a new Earth Observation satellite ecosystem He develops a geographical theory of digital capitalism centered on the processes of location

valuation and marketization to provide a new vantage point from which to better understand and intervene in the dominant techno economic paradigm of our time By centering the spatiality of digital capitalism Alvarez Leon shows how this system is the product not of seemingly intangible information clouds but rather of a vast array of technologies practices and infrastructures deeply rooted in place mediated by geography and open to contestation and change Library Journal ,1995
