The Archaeology of Vernacular Watercraft Amanda M. Evans, 2016-04-19 This volume presents multiple idiographic archaeological studies of vernacular watercraft from North America and the Caribbean Rather than attempt to synthesize all vernacular types this volume focuses on ship construction data recovered through archaeological investigations that has

been used to make inferences about culture This collection of case studies including many examples from cultural resource management and graduate student theses presents a thematic exploration of cultural adaptation as expressed through ship construction **Raincoast Chronicles, First Five; Stories and History of the B.C. Ocean of Destiny Arthur Lower,2011-11-01 The modern history of the North Pacific began five hundred years ago when Europeans sailed into the ocean for the first time This discovery shaped the destinies of seven countries that now rim its Asiatic and North American shores Russia China Japan North Korea South Korea the United States and Canada Their history is an exciting epic of discovery the great expeditions of Marco Polo Drake and Magellan the quest for the spices of Cathay the early days of the fur trade the gold rush and the long treks westward across North America to first establish Canadian and American possessions on the Pacific shore Rivalry and confrontation were part of this epic From the sixteenth to the nineteenth century European powers contested for the riches of the East and the West the wealth of the ocean and territory to sate colonial ambitions Since that time full blooded conflicts developed between Asian states and between Asia and the Western powers As a major trading power in the Pacific with no tradition of territorial expansion and as a respected peacekeeper Canada is in a unique position to view the history of the Pacific impartially This survey is doubly valuable not only as the first history of the North Pacific dealing with the concurrent events in the East and West but also as a history reflecting Canada s international outlook Upcoast Summers Beth Hill,Francis Barrow,1985 Francis and Amy Barrow

Spirits of Our Whaling Ancestors Charlotte Coté,2015-07-21 Following the removal of the gray whale from the Endangered Species list in 1994 the Makah tribe of northwest Washington State announced that they would revive their

whale hunts their relatives the Nuuchah-nulth Nation of British Columbia shortly followed suit. Neither tribe had exercised their right to whale in the case of the Makah a right affirmed in their 1855 treaty with the federal government since the gray whale had been hunted nearly to extinction by commercial whalers in the 1920s. The Makah whale hunt of 1999 was an event of international significance connected to the worldwide struggle for aboriginal sovereignty and to the broader discourses of environmental sustainability, treaty rights, human rights and animal rights. It was met with enthusiastic support and vehement opposition. As a member of the Nuuchah-nulth Nation, Charlotte Cote offers a valuable perspective on the issues surrounding indigenous whaling past and present. Whaling served important social, economic and ritual functions that have been at the core of Makah and Nuuchah-nulth societies throughout their histories. Even as Native societies faced disease epidemics and federal policies that undermined their cultures, they remained connected to their traditions. The revival of whaling has implications for the physical, mental and spiritual health of these Native communities today. Cote asserts, "Whaling she says defines who we are as a people." Her analysis includes major Native studies and contemporary Native rights issues and addresses environmentalism, animal rights activism, anti-treaty conservatism and the public's expectations about what it means to be Indian. These thoughtful critiques are intertwined with the author's personal reflections, family stories and information from indigenous anthropological and historical sources to provide a bridge between cultures. *A Capell Family Book*

Bootleggers and Borders Stephen T. Moore, 2014-11-01 Between 1920 and 1933 the issue of prohibition proved to be the greatest challenge to Canada-U.S. relations. When the United States adopted national prohibition in 1920, ironically just as Canada was abandoning its own national and provincial experiments with prohibition, U.S. tourists and dollars promptly headed north and Canadian liquor went south. Despite repeated efforts, Americans were unable to secure Canadian assistance in enforcing American prohibition laws until 1930. *Bootleggers and Borders* explores the important but surprisingly overlooked Canada-U.S. relationship in the Pacific Northwest during Prohibition. Stephen T. Moore maintains that the reason Prohibition created such an intractable problem lies not with the relationship between Ottawa and Washington, D.C. but with everyday operations experienced at the border level where foreign relations are conducted according to different methods and rules and are informed by different assumptions, identities and cultural values. Through an exploration of border relations in the Pacific Northwest, *Bootleggers and Borders* offers insight into not only the Canada-U.S. relationship but also the subtle but important differences in the tactics Canadians and Americans employed when confronted with similar problems. Ultimately, British Columbia's method of addressing temperance provided the United States with a model that would become central to its abandonment and replacement of Prohibition.

Carving the Western Path R. G. Harvey, 2011-06-15 A century of dealmaking and government misdeeds forms the backdrop of this entertaining account of sternwheelers, iron horses and mountain roads.
