Recent Developments in Fatigue Technology Russell A. Chernenkoff, John J. Bonnen, 1997 A collection of fatigue related research papers since 1991 Covering a range of fatigue topics the 49 papers contained in this publication were presented over the last seven years at the Fatigue Research and Applications sessions held each year at the SAE International Congress *Recent Development of Alternating Current Field Measurement Combine with New Technology* Xin'an Yuan, Wei Li, Jianming Zhao, Xiaokang Yin, Xiao Li, Jianchao Zhao, 2024-07-04 This open access book can be divided into three parts In part 1 three articles are employed to introduce the RACFM technology In part 2 two articles are introduced to explain the Multifrequency ACFM In part 3 three articles are introduced to explain the visualization research in ACFM With the development of ACFM detection technology traditional single excitation frequency and single direction excitation structures cannot meet the requirements of multiple types of defect detection such as cracks at different angles and buried defects New types of excitation structures and methods have been proposed mainly including rotating electromagnetic field detection multi frequency detection and defects visual algorithm The changes in the excitation structure and signal mentioned above have expanded the scope of application of ACFM detection and provided opportunities for the cross integration and innovation of ACFM detection technology with other advanced detection methods This book mainly focuses on the study of the rotating alternating current field measurement RACFM the multifrequency ACFM and the visualization method in ACFM **Advances in Manufacturing Technology XXXIII** Mark Price, 2019-08-15 The development and management of technologies and operations are key to the success of all types of manufacturing business This book presents the proceedings of the 17th International Conference on Manufacturing Research ICMR 2019 held in Belfast UK on 10 12 September 2019 ICMR has been the UK's main manufacturing research conference for 34 years and an international conference since 2003 It brings together researchers academics and industrialists to share their vision knowledge and experience and discuss emerging trends and new challenges in manufacturing research The conference theme of ICMR2019 was smart manufacturing and the book includes the 82 papers presented at the conference representing an acceptance rate of 69% These have been divided into 13 parts which cover topics ranging from robot automation and machining processes additive manufacturing composite manufacturing design methods to information management quality control production optimization and product lifecycle management Providing an overview of current trends and developments the book will be of interest to researchers and engineers in the relevant area of manufacturing processes design and production management *The Shock and Vibration Digest*, 1987-07 *Scientific and Technical Aerospace Reports*, 1994 *U.S. Government Research & Development Reports*, 1970 *Advances in Intelligent Systems* Gary Lee, 2012-01-25 2012 International Conference on Environment Science and 2012 International Conference on Computer Science ICES 2012 ICCS 2012 will be held in Australia Melbourne 15 16 March 2012 Volume 2 contains some topics in intelligent system There are 51 papers were

selected as the regular paper in this volume It contains the latest developments and reflects the experience of many researchers working in different environments universities research centers or even industries publishing new theories and solving new technological problems The purpose of volume 2 is interconnection of diverse scientific fields the cultivation of every possible scientific collaboration the exchange of views and the promotion of new research targets as well as the further dissemination the diffusion of intelligent system including but not limited to Intelligent System Neural networks Machine Learning Multimedia System and Applications Speech Processing Image video Signal Processing and Computer Aided Network Design the dispersion We are sure that the efforts of the authors as well as the reviewers to provide high level contributions will be appreciated by the relevant scientific community We are convinced that presented volume will be a source of knowledge and inspiration for all academic members researchers and practitioners working in a field of the topic covered by the book
