

REWORKING CLASS

Edited by JOHN R. HALL • Foreword by Patrick Joyce

Reworking Class

Jeff Manza, Clem Brooks

Reworking Class:

Reworking Class John R. Hall, 2018-09-05 The twelve essays in this volume propose new directions in the analysis of class John R Hall argues that recent historical and intellectual developments require reworking basic assumptions about classes and their dynamics The contributors effectively abandon the notion of a transcendent class struggle They seek instead to understand the historically contingent ways in which economic interests are pursued under institutionally socially and culturally structured circumstances In his introduction Hall proposes a neo Weberian venue intended to bring the most promising contemporary approaches to class analysis into productive exchange with one another Some of the chapters that follow rework how classes are conceptualized Others offer historical and sociological reflections on questions of class identity A third cluster focuses on the politics of class mobilizations and social movements in contexts of national and global economic change

How Class Works Stanley Aronowitz, 2003-01-01 Although Americans like to believe that they live in a classless society Stanley Aronowitz demonstrates that class remains a potent force Defining class as the power of social groups to make a difference he explains that social groups such as labor movements environmental activists and feminists become classes when they make demands that change the course of history With *How Class Works* Aronowitz puts the subject of social class squarely on the intellectual agenda though in a new inclusive and dynamic form Like his influential *False Promises* *How Class Works* is both intellectually exciting and morally challenging Barbara Ehrenreich In *How Class Works* Aronowitz argues for the enduring vitality of the concept of social class as a way of understanding social relations This is a significant contribution to social theory an argument certain to be widely considered debated and tested George Lipsitz author of *American Studies in a Moment of Danger* An intellectually captivating book on a topic that remains as timely and significant as ever Howard Kimeldorf University of Michigan

Remaking Reality Sara Blair, Joseph B. Entin, Franny Nudelman, 2018-03-15 After World War II U S documentarians engaged in a rigorous rethinking of established documentary practices and histories Responding to the tumultuous transformations of the postwar era the atomic age the civil rights movement the Vietnam War the emergence of the environmental movement immigration and refugee crises student activism the globalization of labor and the financial collapse of 2008 documentary makers increasingly reconceived reality as the site of social conflict and saw their work as instrumental to struggles for justice Examining a wide range of forms and media including sound recording narrative journalism drawing photography film and video this book is a daring interdisciplinary study of documentary culture and practice from 1945 to the present Essays by leading scholars across disciplines collectively explore the activist impulse of documentarians who not only record reality but also challenge their audiences to take part in reality's remaking In addition to the editors the volume's contributors include Michael Mark Cohen Grace Elizabeth Hale Matthew Frye Jacobson Jonathan Kahana Leigh Raiford Rebecca M Schreiber Noah Tsika Laura Wexler and Daniel Worden

Remaking Modernity Julia Adams, Elisabeth S. Clemens, Ann Shola Orloff, 2005-02-01 A sociology collection reviewing the state of historical study in a wide range of areas while showcasing the use of poststructuralist approaches to studying family gender war protest revolution state making social provisions colonialism trans

Handbook of Politics Kevin T. Leicht, J. Craig Jenkins, 2009-11-28 Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and

methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds

Social Cleavages and Political Change Jeff Manza, Clem Brooks, 1999-09-23 What social groups support which political party and how that support has changed over time are central questions in the sociology of political behaviour This study provides the first systematic book length reassessment and restatement of the sociological approach to American politics in more than 20 years It challenges widespread arguments that the importance of social cleavages have declined precipitously in recent years in the face of post industrial social and economic changes The book reconceptualizes the concept of social cleavages and focus on four major cleavages in American society class religion gender and race arguing a that a number of important changes in the alignments of the groups making up these four cleavages have occurred The book examines the implications of these changes for the Democratic and Republican Parties The findings of the book are examined in light of the central dilemmas facing the two major parties in the contemporary political environment

The Radical Middle Class Robert D. Johnston, 2013-10-31 America has a long tradition of middle class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland s reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon s most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope

Lunch-Bucket Lives Craig Heron, 2015-06-03 Lunch Bucket Lives takes the reader on a bumpy ride through the history of Hamilton s working people from the 1890s to the 1930s It ambles along city streets peers through kitchen doors and factory windows marches up the steps of churches and fraternal halls slips into saloons and dance halls pauses to hear political speeches and above all listens for the stories of men women youths and children from families where people relied mainly on wages to survive Heron takes wage earning as a central element in working class life but also looks beyond the workplace into the households and neighbourhoods settlement patterns and housing marriage child care domestic labour public health schooling charity and social work popular culture

gender identities ethnicity and ethnic conflict and politics in various forms presenting a comprehensive view of working class life in the first half of the twentieth century This book has been published with the help of a grant from the Federation for the Humanities and Social Sciences through the Awards to Scholarly Publications Program using funds provided by the Social Sciences and Humanities Research Council of Canada [Approaches to Class Analysis](#) Erik Olin Wright,2005-07-01 Few themes have been as central to sociology as class and yet class remains a perpetually contested idea Sociologists disagree not only on how best to define the concept of class but on its general role in social theory and indeed on its continued relevance to the sociological analysis of contemporary society Some people believe that classes have largely dissolved in contemporary societies others believe class remains one of the fundamental forms of social inequality and social power Some see class as a narrow economic phenomenon whilst others adopt an expansive conception that includes cultural dimensions as well as economic conditions This 2005 book explores the theoretical foundations of six major perspectives of class with each chapter written by an expert in the field It concludes with a conceptual map of these alternative approaches by posing the question If class is the answer what is the question

Republic of Labor Diane P. Koenker,2018-07-05 The long decade from the October Revolution to 1930 was the beginning of a great experiment to create a socialist society Throughout these years socialist trade unions attempted to transform the Russian worker into a productive and enthusiastic participant in this new order How did the workers themselves react to these efforts To what extent were they and their culture transformed into the ideal forms proclaimed in the official ideology In *Republic of Labor* Diane P Koenker illuminates the lived experience of Russia's printers workers who differed from their comrades because of their skill and higher wages but who shared the same challenges of economic hardship and dangerous conditions Paying close attention to the links between work politics and the everyday the author focuses on workers efforts to define their place in socialist society Gender issues are also emphasized and here we see the persistence of a masculinist working class culture counterposed to an official culture promoting gender equality Through this engaging narrative Koenker develops a highly original discourse about class in Soviet society that will interest all students of Russian history as well as those readers who wish to reinvigorate class as a historical and sociological tool of analysis

Encyclopedia of Social Theory George Ritzer,2004-08-11 Click Additional Materials for downloadable samples The *Encyclopedia of Social Theory* is an indispensable reference source for anyone interested in the roots of contemporary social theory It examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses Theories covered include Critical Theory Enlightenment Ethnomethodology Exchange Theory Feminism Marxist Theory Multiculturalism Phenomenology Postmodernism Rational Choice Structural Fundamentalism Led by internationally renowned scholar George Ritzer the *Encyclopedia of Social Theory* draws together a team of more than 200 international scholars covering the developments achievements and prospects of social theory from its inception in the 18th century to the present

Understanding that social theory can both explain and alter the social world this two volume set serves as not only a foundation for learning but also an inspiration for creative and reflexive engagement with the rich range of ideas it contains

Key Themes American Social Theory British Social Theory Comparative and Historical Theory Cultural Theory Economic Sociology Feminist Theory French Social Theory German Social Theory Macrosociological Theories Marxist and Neo Marxist Approaches Method and Metatheory Network and Exchange Theories Other Multiple National Traditions Politics and Government Postmodern Theory Psychoanalytic Theory Schools and Theoretical Approaches Symbolic Interaction and Microsociology Theorists Topics and Concepts in Social Theory Key Features More than 300 entries from fourteen countries Master Bibliography Reader's Guide Extensive biographical coverage of major theorists Extensive cross referencing

Class and the Making of American Literature Andrew Lawson, 2014-03-14 This book refocuses current understandings of American Literature from the revolutionary period to the present day through an analytical accounting of class reestablishing a foundation for discussions of class in American culture American Studies scholars have explored the ways in which American society operates through inequality and modes of social control focusing primarily on issues of status group identities involving race ethnicity gender sexuality and disability The essays in this volume focus on both the historically changing experience of class and its continuing hold on American life The collection visits popular as well as canonical literature recognizing that class is constructed in and mediated by the affective and the sensational It analyzes class division class difference and class identity in American culture enabling readers to grasp why class matters as well as the economic social and political matter of class Redefining the field of American literary cultural studies and asking it to rethink its preoccupation with race and gender as primary determinants of identity contributors explore the disciplining of the laboring body and of the emotions the political role of the novel in contesting the limits of class power and authority and the role of the modern consumer culture in both blurring and sharpening class divisions

Piety in Providence Mark Saunders Schantz, 2000 In contrast to bourgeois churchgoers who were wedded to decorum and rationality the plebeians welcomed emotional outbursts and evinced an abiding belief in the supernatural Schantz charts the ways in which these contrasting religious subcultures collided in the political turmoil of the Dorr Rebellion of 1842

BOOK JACKET

Middle Classes in Africa Lena Kroeker, David O'Kane, Tabea Scharrer, 2018-02-19 This volume challenges the concept of the new African middle class with new theoretical and empirical insights into the changing lives in Sub Saharan Africa Diverse middle classes are on the rise but models of class based on experiences from other regions of the world cannot be easily transferred to the African continent Empirical contributions drawn from a diverse range of contexts address both African histories of class formation and the political roles of the continent's middle classes and also examine the important interdependencies that cut across inter generational urban rural and class divides This thought provoking book argues emphatically for a revision of common notions of the middle class and for the inclusion of insights from the South into the global debate on class

Middle Classes in Africa will be of interest to students and scholars across a range of disciplines as well as NGOs and policy makers with an interest in African societies **The Oxford Encyclopedia of Women in World History** Bonnie G.

Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike **Indispensable Outcasts** Frank Tobias Higbie, 2003 Often overlooked in the history of Progressive Era

labor the hoboes who rode the rails in search of seasonal work have nevertheless secured a place in the American imagination The stories of the men who hunted work between city and countryside men alternately portrayed as either romantic adventurers or degenerate outsiders have not been easy to find Nor have these stories found a comfortable home in either rural or labor histories Indispensable Outcasts weaves together history anthropology gender studies and literary analysis to reposition these workers at the center of Progressive Era debates over class race manly responsibility community and citizenship Combining incisive cultural criticism with the empiricism of a more traditional labor history Frank Tobias Higbie illustrates how these so called marginal figures were in fact integral to the communities they briefly inhabited and to the cultural conflicts over class masculinity and sexuality they embodied He draws from life histories the investigations of social reformers and the organizing materials of the Industrial Workers of the World and presents a complex and compelling portrait of hobo life from its often violent and dangerous working conditions to its ethic of transient mutuality that enabled survival and resistance on the road More than a study of hobo life this interdisciplinary book is also a meditation on the possibilities for writing history from the bottom up as well as a frank discussion of the ways historians' fascination with personal narrative has colored their construction and presentation of history **The Burden of Academic Success** Allison

L. Hurst, 2010-03-01 *The Burden of Academic Success* Loyalists Renegades and Double Agents explores class identity reconstructions among working class students attending a public university Rather than focus on working class failure this book takes a critical look at the psychological and social costs of academic success Based on several hours of interviews with a diverse group of working class students this book describes how successful students respond to react to and manage their academic success The book does for class what other theorists have done for race examining the dynamic interplay of class identity and educational success social mobility The distinguishing features of the book are rich narrative detail compelling stories of student success and struggle intersectional analysis exploring the ways class race and gender inform each other in students understandings and narratives with an interwoven theory throughout and a new typology for understanding working class student responses to the burden of academic success *The Burden of Academic Success* is ideal for courses on sociology education and American studies as well as for use by college educators and administrators *Social Revolutions in the Modern World* Theda Skocpol, 1994-09-30 Theda Skocpol author of the award winning 1979 book *States and Social Revolutions* updates her arguments about social revolutions **The Breakdown of Class Politics** Terry Nichols Clark, Seymour Martin Lipset, 2001-05-22 Class and its linkage to politics became a controversial and exciting topic again in the 1990s Terry Clark and Seymour Martin Lipset published *Are Social Classes Dying* in 1991 which sparked a lively debate and much new research The main critics of Clark and Lipset at Oxford and Berkeley held initially that class was more persistent than Clark and Lipset suggested The positions were sharply opposed and involved several conceptual and methodological concerns But the issues grew more nuanced as further reflections and evidence accumulated This book draws on four main conferences organized by the editors Sharply contrasting views are forcefully argued with rich and subtle evidence The volume includes a broad overview and synthesis major reports by leading participants and original theoretical and empirical contributions

Embracing the Track of Phrase: An Emotional Symphony within **Reworking Class**

In a global consumed by screens and the ceaseless chatter of fast interaction, the melodic elegance and emotional symphony developed by the published word usually fade into the background, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, situated within the pages of **Reworking Class** an enchanting literary treasure filled with natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by a masterful musician of language, that charming masterpiece conducts readers on a psychological journey, skillfully unraveling the concealed melodies and profound affect resonating within each cautiously constructed phrase. Within the depths of this moving examination, we shall explore the book is key harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

portal des vergessens ebook bellem stephan r amazon de - Apr 01 2022

web portal des vergessens ist das mittlerweile fünfte buch von stephan bellem und hat diesmal nichts mit kanduras zu tun das buch ist eine gesunde mischung aus klassischer fantasygeschichte und der welt des 21 jahrhunderts die heikle gratwanderung zwischen den dimensionen bzw zeitepochen ist dem autor bestens gelungen
