Search For A Rational Ethic:

Search for a Rational Ethic George D. Snell, 2012-12-06 Knowledge we have in great abundance and enough exists if wisely used to solve many of the most threatening problems of humanity The key word is wisely wisdom we sorely lack There is a special role to be played by distinguished scholars who having passed the most challenging tests of their specialized fields are willing to confront the central questions of human existence What is life where is the boundary between life and non life Why do we behave as we do What is the meaning of human existence Where do ethical precepts come from What should be the goals of civilization beyond mere survival and hedonic reward These are the kinds of topics George Snell boldly addresses in Search for a Rational Ethic Scientific knowledge is especially important in any such endeavor because we are in the golden age of science and scientific research increasingly impinges on the domain of philosophy Indeed it is not too much to say that philosophy has consisted to a large extent of failed neurological models Much of its investigation pivots on how the mind works that is to what extent the mind can perceive reality how concepts are formed what is the source of moral reasoning and so forth Increasingly scientific research is leading us to the physical basis of mind If we are ever to create the correct neurological model it will be through science Searching for a Universal Ethic John Berkman, William C.

Mattison, 2014-12-29 The best contemporary English language resource on pursuing a universal ethics In this volume twenty three major scholars comment on and critically evaluate In Search of a Universal Ethic the 2009 document written by the International Theological Commission ITC of the Catholic Church That historic document represents an official Church contribution both to a more adequate understanding of a universal ethic and to Catholicism's own tradition of reflection on natural law The essays in this book reflect the ITC document's complementary emphases of dialogue across traditions universal ethic and reflection on broadly applicable ethical guidance within the Christian tradition natural law Among other things the document situates the natural law ethical tradition within the larger search for a universal ethic Along with its insightful essays Searching for a Universal Ethic offers for the first time in published form the Vatican's official English translation of In Search of a Universal Ethic Contributors John Berkman Serge Thomas Bonino O P David Burrell C S C Lisa Sowle Cahill Joseph E Capizzi David Cloutier Anver M Emon Robert P George Sherif Girgis Jennifer A Herdt Russell Hittinger M Cathleen Kaveny Anthony J Kelly C Ss R Fergus Kerr O P Steven A Long William C Mattison III Gilbert Meilaender Livio Melina Michael S Northcott David Novak Jean Porter Martin Rhonheimer Tracey Rowland **International Journal of**

Ethics , 1911 Includes section Book reviews *Ethics for Rational Animals* Elena Cagnoli Fieconi, 2024 Ethics for Rational Animals presents a new account of practical wisdom virtue and akrasia acting against one's best judgement through an original study of the moral psychology at the basis of Aristotle's ethics It ranges over his works on ethics psychology and biology and defends a novel view concerning Aristotle's intellectualism **In Search of a Universal Ethics** Weishi Yuan, 2023-09-01 This book investigates Albert Schweitzer's research on China which first emerged in the 1910s and ended

in 1939-40 Schweitzer's China research evolved alongside the development of his Kulturphilosophie research for over a quarter of a century. In Part I In Preparation this book will mainly focus on the historical background against which Schweitzer formulated his Reverence for Life and established his networks with the China experts. In Part II In Progress Schweitzer's periodic research outcomes which were presented in several of his publications and manuscripts will be studied. Subsequently in Part III In Completion Richard Wilhelm's translation of the Yi Jing which lay down the fundamental principles for Chinese thought. Schweitzer's final manuscript from 1939-40 under the title *Geschichte des indischen und chinesischen Denkens* and his final depiction of Chinese thought will be given special attention. The starting point for Schweitzer's China research was his ideal ethical philosophy of Reverence for Life which he formulated in the context of the decline of the Western civilization and was heavily shaped by his religious and philosophical convictions. Reverence for Life underscored humanistic concerns and its ideals eventually became Schweitzer's interpretative principles in his investigation of Chinese thought. Schweitzer was never a specialist in Chinese thought and Chinese civilization. Dependent on the research of European sinologists his China research served to justify the necessity for Reverence for Life as well as of the methods for applying this new ethical philosophy. During his entire China research Schweitzer made great efforts to critically interpret and transform the knowledge that had been conveyed by European sinologists such as Richard Wilhelm. Although in his final research Schweitzer had already seen great resemblance between classical Confucianism in China and his Reverence for Life he did not ultimately manage to verify his assumptions. His final manuscript on Chinese thought from 1939-40 remained unpublished when he passed away in 1965.

Ethics and Values in Healthcare Management Souzy Dracopolou, 2006-06-19
Healthcare management is a burning issue at the moment and this timely and topical book explores the ethical issues that arise in the context of healthcare management. Among the topics discussed are healthcare rationing including an exposition and defence of the Qaly criterion of healthcare rationing and an examination of the contribution that ethical theory can make to the rationing debate; an analysis of how managers can be preoccupied with the goals of management and the values of doctors simultaneously; an outline of potential guidelines towards formulating a cohesion of healthcare management and ethical management and a reassessment of the role of healthcare professionals. *Ethics and Values in Healthcare Management* provides a valuable and much needed analysis of the ethical problems associated with healthcare management and offers some solutions towards ameliorating healthcare organisations.

A Casebook in Interprofessional Ethics Jeffrey P. Spike, Rebecca Lunstroth, 2016-02-13
The first ethics casebook that integrates clinical ethics, medical nursing and dental and research ethics with public health and informatics. The book opens with five chapters on ethics: the development of interprofessional ethics and brief instructional materials for students on how to analyze ethical cases and for teachers on how to teach ethics. In today's rapidly evolving healthcare system the cases in this book are far more realistic than previous efforts that isolate the decision making process by professions as if each is not embedded in a larger context that involves

healthcare teams hospital policies and technology The central claim of this book is that ethics is an important common ground for all of the health professions Furthermore when we recognize that our professions converge upon a common goal we will find less conflict and more pleasure in working together The Search for Society Robin Fox,1989 A collection of essays by the author focusing on the endemic opposition to the use of a social sciences evolutionary theory based upon innate human qualities and therefore any definition of cultural universals **Rethinking Ethics Through Hypertext** Dominic Garcia,2019-11-18 This book is a formidably compelling source of insights for those who are interested in subjects ranging from moral philosophy social justice hermeneutics and education It reconciles traditional theories of ethics by re framing them through hypertextual techniques bringing together contrasting and contradictory ethical views **Ethical Problems in Dialysis and Transplantation** C. M. Kjellstrand,J. B. Dossetor,2013-03-09 Ethical Problems in Dialysis and Transplantation presents an overview of issues with which nephrologists and decision makers are confronted in their daily practice The search for a universal system of ethics and theories of justice are addressed Furthermore the work provides a normative ethical discussion of ways of distributing resources with a view to selection and commercialization Others chapters discuss a philosophical and religious analysis of stopping treatment and the clinical and ethical aspects of stopping treatment in dialysis Different views from different countries on the subject of dialysis and transplantation are covered including the views expressed by contributors from India Africa Japan Great Britain and China The work presents the clinician with a guide to the ethical considerations underlying the treatment of dialysis and renal transplantation patients
