The Peculiarity of Literature Jeffrey DeShell, 1997 If literature is to survive as literature it must be freed from its subjugation to other disciplines other concerns and other projects If Poe's fiction is to survive in any meaningful way it must be liberated from the critical tradition that sees nothing in it but confirmation of its own theories

Indian Ethos and Western Encounter in Raja Rao's Fiction Dr. Madhulika Singh, 2023-01-29 This book considers the novels and short stories of Raja Rao in terms of the diasporic life of the author Among the earliest of the second wave Indian diaspora in the west Raja Rao employs this unique perspective in most of his works This is the hallmark of his writing However we also discuss the varied human and spiritual aspects of his work as reflecting his own life His experiences as an Indian in a western world But Raja Rao's writing also counts as postcolonial and postmodern far ahead of any others here or there

Ka Osi So Onye: African Philosophy in the Postmodern Era Jonathan O. Chimakonam, Edwin E. Etieyibo, 2018-05-15 This collection is about composing thought at the level of modernism and decomposing it at the postmodern level where many cocks might crow with African philosophy as a focal point It has two parts part one is titled The Journey of Reason in African Philosophy and part two is titled African Philosophy and Postmodern Thinking There are seven chapters in both parts Five of the essays are reprinted here as important selections while nine are completely new essays commissioned for this book As their titles suggest in part one African philosophy is unfolded in the manifestation of reason as embedded in modern thought while in part two it draws the effect of reason as implicated in the postmodern orientation While part one strikes at what V Y Mudimbe calls the colonising structure or the Greco European logo phallo euro centricism in thought part two bashes the excesses of modernism and partly valorises postmodernism In some chapters modernism is presented as an intellectual version of communalism characterised by the cliché our people say Our thinking is that the voice of reason is not the voice of the people but the voice of an individual The idea of this book is to open new vistas for the discipline of African philosophy African philosophy is thus presented as a disagreement discourse Without rivalry of thoughts Africa will settle for far less This gives postmodernism an important place perhaps deservedly more important than history of philosophy allocates to it It is that philosophical moment that says philosophers must cease speaking like gods in their hegemonic cultural shrines and begin to converse across borders with one another In this conversation the goal for African philosophers must not be to find final answers but to sustain the conversation which alone

can extend human reason to its furthest reaches *The Shape of Apocalypse in Modern Russian Fiction* David M. Bethea, 2014-07-14 David Bethea examines the distinctly Russian view of the end of history in five major works of modern Russian fiction Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Transforming the Rebel Self: Quest Patterns in Fiction by William Styron, Flannery O'Connor and Bobbie Ann Mason Sharon Therese Nemeth, 2010 Originally written as the author's dissertation **Unsettling the Literary West** Nathaniel Lewis, 2003-01-01 The test of western literature has invariably been Is it real Is it accurate Authentic The result is a standard anything but literary as Nathaniel Lewis observes in this ambitious work a wholesale rethinking of the critical terms and contexts and thus of the very nature of western writing Why is western writing virtually missing from the American literary canon but a frequent success in the marketplace The skewed status of western literature Lewis contends can be directly attributed to the strategies of the region's writers and these strategies depend consistently on the claim of authenticity A perusal of western American authorship reveals how these writers effectively present themselves as accurate and reliable recorders of real places histories and cultures but not as stylists or inventors The imaginative qualities of this literature are thus obscured in the name of authentic reproduction Through a study of a set of western authors and their relationships to literary and cultural history Lewis offers a reconsideration of the deceptive and often undervalued history of western American literature With unequivocal admiration for the literature under scrutiny Lewis exposes the potential for startling new readings once western writing is freed from its insistence on a questionable authenticity His book sets out a broader system of inquiry that points writers and critics of western literature in the direction of a new and truly sustaining literary tradition Why Fiction Matters in Contemporary China David Der-wei Wang, Dewei Wang, 2020-11-14 Contemporary discussions of China tend to focus on politics and economics giving Chinese culture little if any attention Why Fiction Matters in Contemporary China offers a corrective revealing the crucial role that fiction plays in helping contemporary Chinese citizens understand themselves and their nation Where history fails to address the consequences of man made and natural atrocities David Der Wei Wang argues fiction arises to bear witness to the immemorial and unforeseeable Beginning by examining President Xi Jinping's call in 2013 to tell the good China story Wang illuminates how contemporary Chinese cultural politics have taken a fictional turn which can trace its genealogy to early modern times He does so by addressing a series of discourses by critics within China including Liang Qichao Lu Xun and Shen Congwen as well as critics from the West such as Arendt Benjamin and Deleuze Wang highlights the variety and vitality of fictional works from China as well as the larger Sinophone world ranging
