The Lost Civilization Enigma Philip Coppens,2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal *Two Questers in the Twentieth-century North Africa* Imen Ayari Cozzo,2016-09-23 This book offers a unique exploration of the work of Paul Bowles and Ibrahim Alkoni and reveals timely insights into the relationship between the West and the Orient showing that they both challenge and extend existing scholarship on this subject It builds on a sound theoretical platform which serves as a solid foundation for the analysis of the overarching theme Theories of place representation Orientalism and post colonialism are discussed in depth and are linked to the deconstruction and analysis of the selected literary texts helping the reader understand the various quests and motivations of the protagonists of the works of Bowles and Alkoni The first part of the book looks into the work of Bowles and is based on the fact that many of the author s texts revolve around the theme of encounters between

Western and Eastern cultures It adopts a specific focus on the North African space which is depicted from a number of different points of view including native French English and American perspectives The second section discusses the work of the Libyan author Ibrahim Alkoni as a quester for a Mythical Identity It introduces the reader to the significance of the desert in both classical and modern Arabic literature and its place in the Arabic cultural imaginary This work is highly original both in its approach and subject matter and as such it constitutes a valuable contribution to the study of comparative literature Arabic literature and postcolonial magical realist literature It offers many original insights into this little studied field demonstrating a successful venture into less trodden terrain

In the Shadow of Slavery Judith Carney,2011-02-01 The transatlantic slave trade forced millions of Africans into bondage Until the early nineteenth century African slaves came to the Americas in greater numbers than Europeans In the Shadow of Slavery provides a startling new assessment of the Atlantic slave trade and upends conventional wisdom by shifting attention from the crops slaves were forced to produce to the foods they planted for their own nourishment Many familiar foods millet sorghum coffee okra watermelon and the Asian long bean for example are native to Africa while commercial products such as Coca Cola Worcestershire Sauce and Palmolive Soap rely on African plants that were brought to the Americas on slave ships as provisions medicines cordage and bedding In this exciting original and groundbreaking book Judith A Carney and Richard Nicholas Rosomoff draw on archaeological records oral histories and the accounts of slave ship captains to show how slaves food plots botanical gardens of the dispossessed became the incubators of African survival in the Americas and Africanized the foodways of plantation societies
