Searching For The New Liberalism Perspectives Policies Prospects:

Searching for the New Liberalism Howard Aster, Tom Axworthy, 2003 It is clear today during the early years of the 21st century that the search for fundamental political ideas for vital and viable political discourse is taking many people from the Pope to Tony Blair back to the discourse on liberalism The papers in this volume are intended to extend the Canadian discourse on liberalism further and to provide a first and incomplete map in the search for the new liberalism From the introduction by Howard Aster

Constitutional Democracy Under Stress Peter L. Biro, Peter L. Biro, 2022-12-31 Constitutional democracy is not just any old form of democracy It has a peculiar logic and is premised upon some exacting criteria and principles including good laws and institutions predicated on specific fundamental core values and principles But it is when fully ingrained in the public sensibility a sort of civic serum necessary to inoculate free citizens against the ravages of anti democratic populism authoritarianism racism nativism discrimination xenophobia corruption self dealing and much worse The need for civic inoculation of that sort is urgent today globally The essays in this volume probe the sources and malaise now confronting Constitutional Democracy However they go much further Many of the essays are indeed road maps for a realistic and cultivated response to our present condition The clues for a rehabilitated democracy are found here analytically but also prescriptively

When Politics Comes Before Patients Shawn Whatley, MD,2020-11-18 How Successive Governments Have Weakened the Foundation of All Canadian s Social and Economic Security At some point you will find yourself lying in a hospital bed There is a good chance that your bed will be a firm rubber pad held secure between two rails and parked along a corridor in a busy emergency department Moans of Nurse will echo from the beds ahead of you in line Those pleas will fall largely on deaf ears Your hospital is underfunded and understaffed Welcome to the current reality of Medicare in the 21st century Using searing analogies and first hand accounts Dr Whatley makes the argument that the current Medicare system is unsustainable and unless critical choices and changes are made soon the publicly funded single payer system in Canada will implode Successive governments regardless of political stripe know all too well that Canada s system of health care is one of the defining characteristics of being a Canadian and any changes deemed harmful will have them thrown out of power Thus decades of cuts around the margins centralized control federal provincial infighting and government oversight has left doctors and hospitals with little input on how your health dollars are allocated and spent Citizens are being left to languish in pain for months sometimes years because the current cost and delivery system is programmed for the benefit of governments staying in power That was not what was intended Medicare should be about delivering high quality and timely healthcare value for Canadians This is not an easy fix Treatment starts with a serious look at the disease and Dr Whatley pulls no punches But what sounds like a radical new approach is neither new nor radical He is not arguing for the end of Medicare per se but is making the case to let medical professionals those providing the services become equal partners in its design implementation and delivery
