Seasonable Revolutionary The Mind Of Charles Chauncy:

Seasonable Revolutionary Charles H. Lippy, 1981 *Understanding Affections in the Theology of Jonathan Edwards* Ryan J. Martin, 2018-11-15 This volume argues that the notion of affections discussed by Jonathan Edwards and Christian theologians before him means something very different from what contemporary English speakers now call emotions and that Edwards's notions of affections came almost entirely from traditional Christian theology in general and the Reformed tradition in particular Ryan J Martin demonstrates that Christian theologians for centuries emphasized affection for God associated affections with the will and distinguished affections from passions generally explaining affections and passions to be inclinations and aversions of the soul This was Edwards's own view and he held it throughout his entire ministry Martin further argues that Edwards's view came not as a result of his reading of John Locke or the pressures of the Great Awakening as many Edwardsean scholars argue but from his own biblical interpretation and theological education By analysing patristic medieval and post medieval thought and the journey of Edwards's psychology Martin shows how on their own terms pre modern Christians historically defined and described human psychology *A Documentary History of Unitarian Universalism, Volume One* Dan McKanan, 2017 A panel of top scholars presents the first comprehensive collection of primary sources from Unitarian Universalist history This critical resource covers the long histories of Unitarianism Universalism and Unitarian Universalism in the United States and around the world and offers a wealth of sources from the first fifty five years of the Unitarian Universalist Association From Arius and Origen to Peter Morales and Rebecca Parker this two volume anthology features leaders thinkers and ordinary participants in the ever changing tradition of liberal religion Each volume contains more than a hundred distinct selections with scholarly introductions by leading experts in Unitarian Universalist history The selections include sermons theologies denominational statements hymns autobiographies and manifestos with special attention to class cultural gender and sexual diversity Primary sources are the building blocks of history and *A Documentary History of Unitarian Universalism* presents the sources we need for understanding this denomination's past and for shaping its future **The Surprising Work of God** Garth M. Rosell, 2020-03-18 *The Surprising Work of God* tells the story of how America's mid twentieth century spiritual awakening became a worldwide Christian movement This seminal study brings a unique perspective to the history personalities and institutions of that period and offers an intimate look at evangelicalism through the window of the life ministry and writings of Harold John Ockenga and his long friendship with Billy Graham Ockenga was pastor of the historic Park Street Congregational Church in Boston and cofounder of Fuller Theological Seminary Gordon Conwell Theological Seminary the National Association of Evangelicals and Christianity Today As such he was a central figure in the birth and development of American neo evangelicalism This lively engaging story will be of value to anyone with an interest in the American church of the last century **Creating the American Mind** J. David Hoeveler, 2007-04-09 The nine colleges of colonial America confronted the major political currents of the seventeenth and

eighteenth centuries while serving as the primary intellectual institutions for Puritanism and the transition to Enlightenment thought. The colleges also confronted the most partisan and divisive cultural movement of the eighteenth century, the Great Awakening. *Creating the American Mind* is the first book to present a synthetic treatment of the colonial colleges, tracing their role in the intellectual development of early Americans through the Revolution. Distinguished historian J. David Hoeveler focuses on Harvard, William and Mary, Yale, the College of New Jersey, Princeton, King's College, Columbia, the College of Philadelphia, University of Pennsylvania, Queen's College, Rutgers, the College of Rhode Island, Brown, and Dartmouth. Hoeveler pays special attention to the collegiate experience of prominent Americans, including Jefferson, Hamilton, and Madison. Written in clear and engaging prose, *Creating the American Mind* will be of great value to historians and educators interested in rediscovering the institutions that first fostered American intellectual thought.

Conservative Revolutionaries John S. Oakes, 2018-01-01. Boston Congregationalist ministers Charles Chauncy (1705-1787) and Jonathan Mayhew (1720-1766) were significant political as well as religious leaders in colonial and revolutionary New England. Scholars have often stressed their influence on major shifts in New England theology and have also portrayed Mayhew as an influential preacher whose works helped shape American revolutionary ideology and Chauncy as an active leader of the patriot cause. Through a deeply contextualised re-examination of the two ministers as men of their times, Oakes offers a fresh comparative interpretation of how their religious and political views changed and interacted over decades. The result is a thoroughly revised reading of Chauncy's and Mayhew's most innovative ideas. *Conservative Revolutionaries* unearths strongly traditionalist elements in their belief systems, focussing on their shared commitment to a dissenting worldview based on the ideals of their Protestant New England and British heritage. Oakes concludes with a provocative exploration of how their shifting theological and political positions may have helped redefine prevailing notions of human identity, capability, and destiny.

American Religious Leaders Timothy L. Hall, 2014-05-14. Profiles the lives and achievements of more than 270 spiritual leaders arranged alphabetically who made major contributions to the history of American religious life.

The Jonathan Edwards Encyclopedia Harry S. Stout, Kenneth P. Minkema, Adriaan Cornelis Neele, 2017. Jonathan Edwards (1703-1758) is widely acknowledged as one of the most brilliant religious thinkers and multifaceted figures in American history. A fountainhead of modern evangelicalism, Edwards wore many hats during his lifetime: theologian, philosopher, pastor, and town leader, preacher, missionary, college president, family man, among others. With nearly four hundred entries, this encyclopedia provides a wide-ranging perspective on Edwards, offering succinct synopses of topics large and small from his life, thought, and work. Summaries of Edwards's ideas as well as descriptions of the people and events of his times are all easy to find, and suggestions for further reading point to ways to explore topics in greater depth. Comprehensive and reliable, with contributions by 169 premier Edwards scholars from throughout the world, *The Jonathan Edwards Encyclopedia* will long stand as the standard reference work on this significant extraordinary person.

The Hidden Balance John

Corrigan,1987-07-31 Congregationalist ministers Charles Chauncy and Jonathan Mayhew were among the most influential social and religious thinkers in Boston in the mid eighteenth century This 1987 study argues that Chauncy and Mayhew produced a complex but coherent body of ideas and that these ideas were organized closely and self consciously around the principle of balance Writings on society and government are treated alongside theological works rather than separate from them and each man s corpus is placed against the background of English ideas as well as within the context of intellectual and social life in Boston Investigation of the ideas of Chauncy and Mayhew in this way leads to the conclusion that although the two men believed that a cosmic principle of balance organized social and religious life they believed as well that full philosophical comprehension of this principle was beyond human capability In order to express their understanding of cosmic order Chauncy and Mayhew appropriated the metaphor of the great chain of being The Bloomsbury Encyclopedia of the American Enlightenment Mark G.
