Forgotten Nature Anton Leander Lilja,2022-05-05 Never have the human mind been as troubled as today and never have each individual been more insignificant In many people this creates a desolate feeling inside except for a few that can compensate with an activity Yet this is often never enough to feel truly alive This is no accident it is a historical trend that seems to get worse A time of trouble is brewing where humans are at a crossroads where a choice between freedom and serfdom is the only two options What guides this trend is something we all use every day we can't help it because we are all in its clutches Halting our potential to be what we are born for our forgotten side waits for us all if we are brave enough to accept it
