Long Meg:

The Concept of the Goddess Sandra Billington, Miranda Green, 2002-09-11 The Concept of the Goddess explores the function and nature of goddesses and their cults in many cultures including Celtic Roman Norse Caucasian Japanese traditions The contributors explore the reasons for the existence of so many goddesses in the mythology of patriarchal societies and show that goddesses have also assumed more masculine roles with war hunting and sovereignty being equally important aspects of their cults *New Light on the Neolithic of Northern England* Gill Hey, Paul Frodsham, 2021-01-13 These papers highlight recent archaeological work in Northern England in the commercial academic and community archaeology sectors which have fundamentally changed our perspective on the Neolithic of the area Much of this was new work and much is still not published has been overlooked in the national discourse The papers cover a wide geographical area from Lancashire north into the Scottish Lowlands recognising the irrelevance of the England Scotland Border They also take abroad chronological sweep from the Mesolithic Neolithic transition to the introduction of Beakers into the area The key themes are the nature of transition the need for a much improved chronological framework regional variation linked to landscape character links within northern England and with distant places the implications of new dating for our understanding the axe trade the changing nature of settlement and agriculture the character early Neolithic enclosures the need to integrate rock art into wider discourse Cross Dressing, Sex, and Gender Vern L. Better a Shrew than a Sheep Pamela Allen Brown,2018-08-06 In a study that explodes the assumption that early modern comic culture was created by men for men Pamela Allen Brown shows that jest books plays and ballads represented women as laugh getters and sought out the laughter of ordinary women Disputing the claim that non elite women had little access to popular culture because of their low literacy and social marginality Brown demonstrates that women often bested all comers in the arenas of jesting gaining a few heady moments of agency Juxtaposing the literature of jest against court records sermons and conduct books Brown employs a witty entertaining style to propose that non elite women used jests to test the limits of their subjection She also shows how women's mocking laughter could function as a means of social control in closely watched neighborhoods While official culture beatified the sheep like wife and disciplined the scold jesting culture often applauded the satiric shrew whether her target was priest cuckold or rapist Brown argues that listening for women's laughter can shed light on both the dramas of the street and those of the stage plays from The Massacre of the Innocents to The Merry Wives of Windsor to The Woman's Prize taught audiences the importance of gossips alliances as protection against slanderers lechers tyrants and wife beaters Other jests ballads jigs and plays show women reveling in tales of female roguery or scoffing at the perverse patience of Griselda As Brown points out some women found Griselda types annoying and even foolish better be a shrew than a sheep **Dictionary of Phrase and Fable** Ebenezer Cobham Brewer,1880
