Prisoners of Politics Rachel Elise Barkow, 2019-03-04 A CounterPunch Best Book of the Year A Lone Star Policy

Institute Recommended Book If you care as I do about disrupting the perverse politics of criminal justice there is no better place to start than Prisoners of Politics James Forman Jr author of Locking Up Our Own The United States has the highest rate of incarceration in the world The social consequences of this fact recycling people who commit crimes through an overwhelmed system and creating a growing class of permanently criminalized citizens are devastating A leading criminal justice reformer who has successfully rewritten sentencing guidelines Rachel Barkow argues that we would be safer and have fewer people in prison if we relied more on expertise and evidence and worried less about being tough on crime A groundbreaking work that is transforming our national conversation on crime and punishment Prisoners of Politics shows

how problematic it is to base criminal justice policy on the whims of the electorate and argues for an overdue shift that could upend our prison problem and make America a more equitable society A critically important exploration of the political dynamics that have made us one of the most punitive societies in human history A must read by one of our most thoughtful scholars of crime and punishment Bryan Stevenson author of *Just Mercy* Barkow's analysis suggests that it is not enough to slash police budgets if we want to ensure lasting reform We also need to find ways to insulate the process from political winds David Cole *New York Review of Books* A cogent and provocative argument about how to achieve true institutional reform and fix our broken system Emily Bazelon author of *Charged*

Something to Fear Ira Chernus, Randall Fowler, 2023-11-17 A presidency unlike any other Franklin D Roosevelt's legacy in foreign affairs has been contested since the day of his passing Few presidential statements have echoed through history like FDR's charge to conquer fear itself Yet immediately after the end of World War II the United States was gripped by a pervasive sense of national insecurity In *Something to Fear* Ira Chernus and Randall Fowler demonstrate that Roosevelt's rhetoric vision and policies promoted a broadly defined sense of American security over a period of thirty three years ultimately helping elevate security to its primacy in US political discourse by the end of his presidency In doing so however he also heightened the prominence of insecurity in American public life mediating the United States transition to superpower status in a way that also elevated fear in debates over foreign affairs FDR's presidency precipitated a complex shift in US foreign policy that defies any straightforward account organized along a linear isolationist to interventionist trajectory Chernus and Fowler investigate the uncertainties and contradictions embedded in FDR's presidential rhetoric which drew from realist racial progressive nostalgic apocalyptic liberal internationalist and American exceptionalist discourses In this way Roosevelt's rhetoric anticipated the ambivalences

contained in American adventures abroad ever since Something to Fear shows how FDR's response to the Great Depression the debates over intervention and World War II left an immense rhetorical legacy that often stressed insecurity This study of FDR's entire political career also carefully links him to the Progressive Era before his presidency and to the Cold War era after it

The Politics of Prison Crowding Simone Santorso, 2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths The Politics of Prison Crowding offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice
