British Children's Literature and the First World War David Budgen, 2018-05-17 Perceptions of the Great War have changed significantly since its outbreak and children's authors have continually attempted to engage with those changes explaining and interpreting the events of 1914-18 for young readers British Children's Literature and the First World War examines the role novels textbooks and story papers have played in shaping and reflecting understandings of the conflict throughout the 20th century David Budgen focuses on representations of the conflict since its onset in 1914 ending with the centenary commemorations of 2014

From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children s authors and whether modern children s books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events Longman Companion to Germany Since 1945 Adrian Webb,2014-09-09 This new Companion provides a wealth of information on the history of Germany since the Second World War including much material which is not readily available Throughout equal attention is devoted to East and West Germany and covers political social cultural and economic developments The author provides information on for example political parties and office holders living standards crime and the environment Germany s relationship with the European Union and East Germany up to 1990 Attention is also devoted to topical issues such as opposition and dissent in the East terrorism neo nazism and racial violence An essential reference book for anyone studying or teaching postwar Germany in history or politics departments

Wilt,2001-09-20 Food for War is a ground breaking study of Britain s food and agricultural preparations in the 1930s as the nation once again made ready for war Historians writing about 1930s Britain have usually focused on the Depression appeasement or political

military and industrial concerns None have dealt adequately with another significant topic food and agriculture as the nation moved albeit reluctantly from peace to war In this new account Alan F Wilt makes right this omission by examining in depth the relationship between food agriculture and the nation s preparations for war He reveals how food and agriculture became closely linked to rearmament as early as 1936 that the government s preparations in this sector as contrasted with other areas of the economy were relatively well developed when war broke out in 1936 and that rural and farm interests well understood the effect that war would have on their way of life He argues that food and agriculture need to be integrated into the more general historical discourse for what happened in Britain in the 1930s not only set the stage for World War II but also contributed to a more robust agriculture in the decades that followed Longman Companion to Britain since 1945 Chris Cook,John Stevenson,2014-09-09 This timely new edition of the Longman Companion to Britain since 1945 compiled by the series editors themselves provides a wide ranging compendium of key facts and figures on British history from the start of the landmark Attlee government in 1945 to the final years of the 1990s The book embraces all major aspects of British history government and society reflecting the massive social political and economic changes that have transformed the face of Britain since the end of the Second World War Fully revised and updated this new edition covers the advent of Tony Blair the electoral victory of New Labour in 1997 and the major constitutional changes currently underway in Britain This book will be invaluable to anyone interested in the history and politics of post war Britain from students and teachers to party activists and lovers of reader friendly reference books **Faith on the Home Front** Stephen Parker,2005 Issued also as the author s thesis Ph D University of Birmingham 2003 The Oxford English Literary History: Volume 10: 1910-1940: The Modern Movement Chris Baldick,2005-11-10 This exciting new volume provides a freshly inclusive account of literature in England in the period before during and after the First World War Chris Baldick places the modernist achievements of Virginia Woolf T S Eliot and James Joyce within the rich context of non modernist writings across all major genres allowing high literary art to be read against the background of low entertainment Looking well beyond the modernist vanguard Baldick highlights the survival and renewal of realist traditions in these decades of post Victorian disillusionment Ranging widely across psychological novels war poems detective stories satires and children s books The Modern Movement provides a unique survey of the literature of this turbulent time The Modern Movement Chris Baldick,2004 A major new survey of literature in England during the first half of the twentieth century Chris Baldick places modernist with non modernist writings high art with low entertainment The Modern Movement ranges broadly covering psychological novels war poems detective stories satires children s books and other literary forms evolving in response to the new anxieties and exhilarations of twentieth century life **The Longman Companion to European Nationalism 1789-1920** Raymond Pearson,2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were
