Longterm Conflict Prevention And Industrial Development:

Long-Term Conflict Prevention and Industrial Development Ralf Bredel, 2003 After decades of striving to prevent international conflict major armed conflicts in the 1990s have taken place within national boundaries After the series of national independence wars in the 1950s and 1960s and frequent geopolitical wars in the 1970s and 1980s a category of wars of the third kind prevailed The aim of this book is to consider the root causes of recent internal conflicts and to develop long term conflict prevention strategies from here New insights suggest the central role of politico economic inequalities in ethnic religious and cultural conflict The United Nations system has just started to adjust to this new reality of conflict and make long term conflict prevention a priority issue on international agendas Whereas development practitioners should principally conceive their work through a conflict prevention lens there is a shift in focus to United Nations agencies that deal with the economic characteristics of conflict The unbroken significance of a sustainable industrial development process in developing countries may allow the United Nations Industrial Development Organization UNIDO a particular vantage point and role in the long term prevention of conflict

Strategies, Structures, and Processes for Network and Resources Management in Industrial Parks Tiina Salonen, 2010 In the recent years the number of industrial parks has grown rapidly worldwide driven by economic policies and industrial restructuring The high resource consumption and prices as well as stringent environmental policies and laws have pushed the strategic importance of efficient resources management Due to the proximity of companies industrial parks offer potential for the development of interorganizational resource exchanges in terms of energy and waste infrastructure sharing and joint services Utilizing this potential enhances the resource efficiency and added value of companies while often reducing their environmental impacts Efficient management of resources in industrial parks requires an appropriate management concept However the research and literature on the management of industrial parks is very limited As a solution the author introduces the concept for integrated resources management The theoretical status quo of the concept is studied from the perspective of industrial ecology with the conclusion that the approach lacks a strategic management dimension To tackle the problem the author draws upon the strategic management and organizational theories as well as the approaches of network and environmental management The empirical insights into the concept are sought by analyzing applied practices to network and resources management in industrial parks The case studies comprise representative examples of successful industrial restructuring from Germany such as DOW ValuePark R and Chemical Industrial Park Marl and showcases of China's economic policy such as Shanghai Chemical Industry Park and Tianjin Economic and Technological Development Area A reader will find in this book a sound theoretical framework to accommodate further research and practical decision support to manage resource problems characterized by conflicting stakeholder interests *Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding* Essien, Essien, 2020-03-20 The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution Given the curious datum that culture is implicated in nearly every conflict in the world culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes Yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored The Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals traditions and laws Highlighting a wide range of topics such as criminal justice politics and technological development this book is essential for educators social scientists sociologists political leaders government
