Axel Smith,2024-02-29 What began as a genuine though radical effort to obtain justice became an exploration of hidden agendas where the more I probed the more I discovered that certain jurists had committed the most serious crime of Fraud on the Court against the judicial machinery in U S history By doing so their actions served to preclude me from obtaining justice See What I See Craig E. Whitsey,2015-03-09 Being blessed to have traveled extensively around the world I have had the pleasure to truly see the differences and the similarities of all humans upon this earth It is not an easy thing to see people suffering in their lives and not be moved to some kind of action or at the least speak openly about it Bringing attention to things that can be changed that often is ignored because no one wants to be responsible for speaking out against wrong Seeing that if a situation isn't directly affecting a person then it seems to not be important to help change it I am compelled to often write about the common things in life that effects every human yet for some reason or another no one wants to address Life is about growth not living in denial about what can be made right Everyone in this life deserves a chance to have joy peace and happiness without others pressing their ways upon them I believe that we are our worst enemies and until we come to the realization that most of our suffering in life comes from ourselves and we have the power within ourselves to change that Then and only then will this world be the place it was intended to be I encourage all who read this book to be encouraged and know that there is nothing in this world you can't overcome Just believe in yourself and never give up **The Surrogate** Tania Carver,2013-02-13 Carver's internationally
