Forgetting Lot's Wife Martin Harries,2009-08-25

Can looking at disaster and mass death destroy us Forgetting Lot s Wife provides a theory and a fragmentary history of destructive spectatorship in the twentieth century Its subject is the notion that the sight of historical catastrophe can destroy the spectator The fragments of this history all lead back to the story of Lot s wife looking back at the destruction of the cities of Sodom and Gomorrah she turns into a pillar of salt This biblical story of punishment and transformation a nexus of sexuality sight and cities becomes the template for the modern fear that looking back at disaster might petrify the spectator Although rarely articulated directly this idea remains powerful in our culture This book traces some of its aesthetic theoretical and ethical consequences Harries traces the figure of Lot s wife across media In extended engagements with examples from twentieth century theater film and painting he focuses on the theatrical theory of Antonin Artaud a series of American films and paintings by Anselm Kiefer These examples all return to the story of Lot s wife as a way to think about modern predicaments of the spectator On the one hand the sometimes veiled figure of Lot s wife allows these artists to picture the desire to destroy the spectator on the other she stands as a sign of the potential danger to the spectator These works that is enact critiques of the very desire that inspires them The book closes with an extended meditation on September 11 criticizing the notion that we should have been destroyed by witnessing the events of that day
