Migration Control Logics and Strategies in Europe

Claudia Finotelli,Irene Ponzo,2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions

the election of Trump the Brexit vote and the signing and implementation of the Schengen Agreement *Crimmigrant Nations* critically analyzes nationalist state policies in countries that have criminalized migrants and categorized them as threats to national security Highlighting a pressing and perplexing problem facing the Western world in 2020 and beyond this collection of essays illustrates not only how anti immigrant sentiments and nationalist discourse are on the rise in various Western liberal democracies but also how these sentiments are being translated into punitive and cruel policies and practices that contribute to a merger of crime control and migration control with devastating effects for those falling under its reach Mapping out how these measures are taken the rationale behind these policies and who is subjected to exclusion as a result of these measures *Crimmigrant Nations* looks beyond the level of the local or the national to the relational dynamics between different actors on different levels and among different institutions
