Williams,2008 After reviewing the available evidence from this extensive case study the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor While arguing that the TASER electronic control devices are safe less lethal weapons the author also cautions that they are not completely effective **The Journal of the Assembly During the ... Session of the Legislature of the State of California** California. Legislature. Assembly, Official Gazette of the United States Patent and Trademark Office ,2006 *American Philanthropic Foundations* David C. Hammack,Steven Rathgeb Smith,2018-04-16 Once largely confined to the biggest cities in the mid Atlantic and Great Lakes states philanthropic foundations now play a significant role in nearly every state Wide ranging and incisive the essays in *American Philanthropic Foundations* Regional Difference and Change examine the origins development and accomplishments of philanthropic foundations in key cities and regions of the United States Each contributor assesses foundation efforts to address social and economic inequalities and to encourage cultural and creative life in their home regions and elsewhere This fascinating and timely study of contemporary America s philanthropic foundations vividly illustrates foundations commonalities and differences as they strive to address pressing public problems Gang Injunctions and Abatement Matthew D. O'Deane,2011-12-20 As gang violence continues to rise across the country and the world police departments prosecutors and community members are seeking new methods to reduce the spread of gang related criminal activity Civil gang injunctions have become a growing feature of crime control programs in several states across the nation *Gang Injunctions and Abatement* **Full Disclosure** Archon Fung,Mary Graham,David Weil,2007 Publisher description **Redistributing the Poor** Armando Lara-Millán,2021 Whenever the topic of large jails and public hospitals in urban America is raised a single idea comes to mind It is widely believed that because we as a society have dis invested from public

health the sick and poor now find themselves within the purview of criminal justice institutions In *Redistributing the Poor* ethnographer and historical sociologist Armando Lara Mill n takes us into the day to day operations of running the largest hospital and jail system in the world and argues that such received wisdom is a drastic mischaracterization of the way that states govern urban poverty at the turn of the 21st century Rather than focus on our underinvestment of health and overinvestment of criminal justice his idea of redistributing the poor draws attention to how state agencies circulate people between different institutional spaces in such a way that generates revenue for some agencies cuts costs for others and projects illusions that services have been legally rendered By centering the state s use of redistribution Lara Mill n shows how certain forms of social suffering the premature death of mainly poor people of color are not a result of the state s failure to act but instead the necessary outcome of so called successful policy Grants for Religion, Religious Welfare, & Religious Education ,2006 **Qualitative Research Methods for Media Studies** Bonnie S. Brennen,2012-11-12 This book

introduces the essential qualitative methods used in media research with an emphasis on integrating theory with practice Each method is introduced through step by step instruction on conducting research and interpreting research findings alongside in depth discussions of the historical cultural and theoretical context of the particular method and case studies drawn from published scholarship This text is a comprehensive and accessible introduction to qualitative methods ideal for media and mass communication research courses **Homeland Security** James J. F. Forest,2006-06-30 America is a target the homeland is under threat While Americans have been targets of terrorist attacks for quite some time September 11 2001 awoke the nation to the reality that we are vulnerable in our homes our places of work and worship and our means of public transportation And yet we must continue to function as best we can as the world s most vibrant economic and political community The current threat environment requires greater engagement with the public as the necessary eyes and ears of the nation s homeland security infrastructure However to be effective the public must be equipped with the knowledge of where and why specific locations and activities may be a terrorist target what is being done to protect those targets and how they can help This three volume set answers that need The chapters of each volume of *Homeland Security* revolve around a core of central questions Are we safer today than we were pre 9 11 What steps have been taken in all these areas to protect ourselves What are the threats we face and what new threats have developed since 9 11 Are we staying one step ahead of those who wish to do us harm In 2002 more than 400 million people 122 million cars 11 million trucks 2 4 million freight cars and 8 million containers entered the United States Nearly 60 000 vessels entered the United States at its 301 ports of entry Clearly the amount of activity this represents will require a long term commitment to innovation organizational learning and public vigilance to complement an already overstretched network of government agencies and security professionals

Deinstitutionalisation and After Despo Kritsotaki,Vicky Long,Matthew Smith,2016-11-29 The book relates the history of post war psychiatry focusing on deinstitutionalisation namely the shift from asylum to community in the second part of the

twentieth century After the Second World War psychiatry and mental health care were reshaped by deinstitutionalisation But what exactly was involved in this process What were the origins of deinstitutionalisation and what did it mean to those who experienced it What were the ramifications both positive and negative of such a fundamental shift in psychiatric care Post War Psychiatry in the Western World Deinstitutionalisation and After seeks to answer these questions by exploring this momentous change in mental health care from 1945 to the present in a wide range of geographical settings The book articulates a nuanced account of the history of deinstitutionalisation highlighting the constraints and inconsistencies inherent in treating the mentally ill outside of the asylum while seeking to inform current debates about how to help the most vulnerable members of society
