form Programme music is inspired by other forms of artistic expression especially literature and is indelibly linked with the content However halfway between these two types of music a new one is born absolute music This music is the result from the dialectic established between the pure and programme exactly in the middle of two opposing philosophies that of Idealism and that of Materialism All of this context described in this book is what defines the essence of Romantic music but also what allows us to understand the music of the twentieth century and that of today because the controversy between pure music and programme music has represented in the history of western musical thought the turning point that led to the creation of the Gesamtkunstwerk Total Work of Art and the relationship between music and film for example as well as other artistic expressions **La Sombra de Espí** Charles Marcel Mengotti,2012-11 **Hispania** ,1922 Vol 1 includes Organization number published Nov 1917
