Los Zapaticos De Rosa The Pink Shoes:

From Bananas to Buttocks Myra Mendible, 2010-06-03 From the exuberant excesses of Carmen Miranda in the tutti frutti hat to the curvaceous posterior of Jennifer Lopez the Latina body has long been a signifier of Latina identity in U S popular culture But how does this stereotype of the exotic erotic Latina bombshell relate if at all to real Latina women who represent a wide spectrum of ethnicities national origins cultures and physical appearances How are ideas about Latinidad imagined challenged and inscribed on Latina bodies What racial class and other markers of identity do representations of the Latina body signal or reject In this broadly interdisciplinary book experts from the fields of Latina studies media studies communication comparative literature women s studies and sociology come together to offer the first wide ranging look at the construction and representation of Latina identity in U S popular culture The authors consider such popular figures as actresses Lupe V lez Salma Hayek and Jennifer Lopez singers Shakira and Celia Cruz and even the Hispanic Barbie doll in her many guises They investigate the media discourses surrounding controversial Latinas such as Lorena Bobbitt and Marisleyxis Gonz lez And they discuss Latina representations in Lupe Solano s series of mystery books and in the popular TV shows *El Show de Cristina* and *Laura en Am rica* This extensive treatment of Latina representation in popular culture not only sheds new light on how meaning is produced through images of the Latina body but also on how these representations of Latinas are received revised and challenged

De La Torre, 2021-05-15 Jos Mart s Liberative Political Theology argues that Mart s religious views which at first glance might appear outdated and irrelevant are actually critical to understanding his social vision During a time in which the predominant philosophical view was materialistic e g Darwin Marx Mart sought to reconcile social and political trends with the metaphysical believing that ignoring the spiritual would create a soulless approach toward achieving a liberative society As such Mart used religious concepts and ideas as tools that could bring forth a more just social order In short this book argues Mart could be considered a precursor to what would come to be called liberation theology Miguel De La Torre has authored the most comprehensive text written thus far concerning Mart s religious views and how they affected his political thought The few similar texts that exist are written in Spanish and most of them romanticize Mart s spirituality in an attempt to portray him as a Christian believer Only a handful provide an academic investigation of Mart s theological thought based solely on his writings and those concentrate on just one aspect of Mart s religious influences Jos

Mart s Liberative Political Theology allows for mutual influence between Mart s political and religious views rather than assuming one had precedence over the other Ruben Dario Centennial Studies Miguel Gonzalez-Gerth, George D. Díaz, 2024-01-15 *Latin America and the Transports of Opera* studies a series of episodes in the historical and textual convergence of a hallowed art form and a part of the world often regarded as peripheral. Perhaps unexpectedly, the archives of opera generate new arguments about several issues at the heart of the established discussion about Latin America: the allure of European cultural models, the ambivalence of exoticism, the claims of nationalism and cosmopolitanism, and ultimately the place of the region in the global circulation of the arts. *Opera's transports* concern literal and imagined journeys as well as the emotions that its stories and sounds trigger as they travel back and forth between Europe, the United States, too, and Latin America. Focusing mostly on librettos and other literary forms, this book analyzes Calderón de la Barca's baroque play on the myth of Venus and Adonis set to music by a Spanish composer at Lima's viceregal court; Alejo Carpentier's neobaroque novella on Vivaldi's opera about Moctezuma; the entanglements of opera with class, gender, and ethnicity throughout Cuban history; music dramas about enslaved persons by Carlos Gomes and Hans Werner Henze staged in Rio de Janeiro and Copenhagen; the uses of Latin American poetry and magical realism in works by John Adams and Daniel Catán; and a novel by Manuel Mujica Lainez set in Buenos Aires's Teatro Colón plus a chamber opera about Victoria Ocampo with a libretto by Beatriz Sarlo. Close readings of these texts underscore the import and meanings of opera in Latin American cultural history.

Ethics and Children's Literature Claudia Mills, 2016-05-13 Exploring the ethical questions posed by in and about children's literature, this collection examines the way texts intended for children raise questions of value, depict the moral development of their characters, and call into attention shared moral presuppositions. The essays in Part I look at various past attempts at conveying moral messages to children and interrogate their underlying assumptions. What visions of childhood were conveyed by explicit attempts to cultivate specific virtues in children? What unstated cultural assumptions were expressed by growing resistance to didacticism? How should we prepare children to respond to racism in their books and in their society? Part II takes up the ethical orientations of various classic and contemporary texts, including prosaic ethics in *The Hundred Acre Wood*, moral discernment in *Narnia*, ethical recognition in the distant worlds traversed by L. Engle, and virtuous transgression in recent Anglo-American children's literature and in the emerging children's literature of 1960s Taiwan. Part III's essays engage in ethical criticism of arguably problematic messages about our relationship to nonhuman animals, about war, and about prejudice. The final section considers how we respond to children's literature with ethically focused essays exploring a range of ways in which child readers and adult authorities react to children's literature. Even as children's literature has evolved in opposition to its origins in didactic Sunday school tracts and moralizing fables, authors, parents, librarians, and scholars remain sensitive to the values conveyed to children through the texts they choose to share with them.

Bookbird, 1995 *The Power of Two Languages* Josefina Villamil Tinajero, Alma Flor Ada, 1993 [Reclaiming Paris](#) Fabiola Santiago, 2008-09-16 Men are like perfumes. In an instant, with nothing but a whiff of judgment, I either love them or discard them. Marisol is an exuberant poet and historical archivist living in contemporary Miami. Like her adopted

city she is a sensual free spirit Born in Cuba and transplanted at an early age to Florida she nurses a nostalgia for the legendary island birthplace she barely remembers She also harbors a passion for scents donning a new perfume each time she takes on a new relationship After the death of her beloved grandmother and a series of sensuous but disappointing romances Marisol realizes that she must break free from the shackles of her history abandon lost causes and embrace the only real home she has ever had her own wandering heart Freed at last from yearning for old Havana the Paris of the Caribbean this romantic exile must embrace a new life Although she cannot reclaim Havana she can experience the real thing Paris so Marisol sets out with an open ticket to chart the course of her future Bridging the divide between the effervescent Miami of today and the mystical Cuba of yesteryear Reclaiming Paris is a paean to place and memory rich with humor passion and unforgettable characters El-Hi Textbooks & Serials in Print, 2000 ,2000 **Resistance and**

Survival Ann González,2022-08-23 In her analysis of some of the most interesting and important children's literature from Central America and the Caribbean Ann González uses postcolonial narrative theory to expose and decode what marginalized peoples say when they tell stories to their children and how the interpretations children give these stories today differ from the ways they have read them in the past González reads against the grain deconstructing and critiquing dominant discourses to reveal consistent narrative patterns throughout the region that have helped children maneuver in a world dominated by powerful figures from parents to agents of social control political repression and global takeover Many of these stories are in some way lessons in resistance and survival in a world where the toughest kid on the block often an outsider demands that a group of children play or pay on his terms González demonstrates that where traditional strategies have proposed the model of the trickster or the paradoxically astute fool to mock the pretensions of the would be oppressor new trends indicate that the region's children and those who write for them show increasing interest in playing the game on their own terms getting to know the Other embracing difference and redefining their identity and role within the new global culture Resistance and Survival emphasizes the hope underlying this contemporary children's literature for a world in which all voices can be heard and valued the hope of an authentic happy ending **The Columbia Encyclopedia of Modern Drama** Gabrielle H.
