Dejean, 2014-07-14 This highly original interpretation of the novel of the French Classical age explores military strategy as a central metaphor in Rousseau's *Julie* and Emile Laclos's *Les Liaisons dangereuses* and Sade's *Les 120 Jours de Sodome* Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **André Gide and the Second World War** Jocelyn Van Tuyl, 2012-02-01 Arguably the most influential French writer of the early twentieth century Andr Gide is a paradigmatic figure whose World War II writings offer an exemplary reflection of the challenges facing a leading writer in a time of national collapse Tracing Gide's circuitous intellectual itinerary from the fall of France through the postwar purge this book examines the ambiguous role of France's senior man of letters during the Second World War The writer's intricate maneuverings offer privileged insights into three issues of broad significance the relationship of literature and politics in France during World War II the repressions and repositionings that continue to fuel controversy about the period and the role of public intellectuals in times of national crisis With the exception of the early wartime Journal Gide's publications during France's dark years have received little critical attention This book scrutinizes the entire wartime oeuvre in depth tracing the evolution of Gide's political views and most importantly reading the wartime texts against each other It is the interplay among these texts that reveals the full complexity of Gide's political positionings and the rhetorical brilliance he deployed to redress his tarnished image **Great Lives from History: Cro-Hen** Frank Northen Magill, 1990 The Aesthetics of Excess Allen S. Weiss, 1989-07-03 This book investigates the reciprocal and often transgressive relations between rhetorical figures and libidinal activity The works of Nietzsche Artaud Bataille Klossowski and Sade are reconsidered in light of the modernist and postmodernist problematics of simulacra fascination sublimation and desublimation perversion deconstruction and libidinal economies Reading across the boundaries of philosophy art history comparative literature film studies and psychoanalytic

theory this work reveals the manner in which theoretical discourse is imbued with passional motivations and conversely shows how the passions are structured according to logical and rhetorical figures In offering specific rereadings of several key figures of our modernist tradition this work helps identify the sources of the postmodern condition It thus provides a theoretical foundation for contemporary art and literary criticism especially of those works to be found at the margins of our culture
