## **Loss Bereavement And Grief A Guide To Effective Caring:**

*Loss, Bereavement and Grief* Bob Spall, Stephen Callis, 1997 Helps the reader to confront and address the personal issues of experienced and feared loss thus enabling them as a professional carer to work more effectively with others Presents a clear insight into the links between theoretical personal and professional issues Provides highly practical guidance on coping with the most difficult situations Structured questions are designed to trigger consideration of key issues Working with Loss and Grief Linda Machin, 2008-12-01 In a book that is replete with illustrative case studies Linda Machin draws together the findings of a wide range of psychological and sociological theory and research in order to develop a way of thinking about grief and loss that is intelligible to ordinary mortals Her Adult Attitude to Grief scale promises to be a useful tool by which problems can be identified and progress monitored Colin Murray Parkes Honorary Consultant Psychiatrist to St Christopher's Hospice Loss is a universal human experience Supporting those who are grieving a significant life loss is a key role for many professionals in health and social care settings and is the focus in many voluntary organisations Although there is an extensive literature on loss and bereavement practitioners often struggle to see how to put theory into practice Working with Loss and Grief provides a new model which makes clear connections between theory and practice The Range of Response to Loss model provides a theoretical compass for recognising the wide variability in reaction to loss and the Adult Attitude to Grief scale is a tool for mapping individual grief and its change over time providing an individual grief profile Together these offer a framework for practitioners to Listen to stories of grief told by clients Identify common patterns in grief Recognize individual difference in grief response Assess the need for therapeutic intervention or support Prompt therapeutic dialogue Guide therapeutic focus Appraise clients Evaluate outcomes Case examples show that the experience of grief is highly individual but also capable of being understood in terms of general concepts As such it is a valuable resource not only for practitioners and trainees in counselling and social work but also for psychologists doctors nurses and for researchers studying loss and grief Dr Linda Machin is a Visiting Research Fellow of Keele University having been a Lecturer in Social Work and Counselling at Keele She established a counselling service for the bereaved in North Staffordshire and continues to work as a researcher a hospice counsellor and a freelance trainer **Dying, Death and Grief** Brenda Mallon, 2008-07-21 This book's strengths are Brenda Mallon's clinical wisdom experience and insights and the practical constructive down to earth way in which she conveys these to her readers This will appeal to many who are searching for guidance in the difficult task of providing support for the bereaved Bereavement Care Spring 2010 This is a well written book that makes a very useful addition to the field Therapy Today February 2009 A refreshing down to earth text that examines theory and research without becoming an academic tome It is comprehensive focused on practice and contains important insights for developing the essential skills required to provide effective bereavement care Dr John Costello Head of Primary Care University of Manchester Brenda Mallon gives the term grief counselling definition in a way no one has done before If you are new to

counselling the bereaved this book is the best introduction I have seen If you are an experienced grief counsellor this should be the next book you read Professor Dennis Klass Webster University Dying Death and Grief is written for anyone who provides support to adults following bereavement Whether in a professional or voluntary capacity bereavement care requires empathy judgement and skill to ensure your response matches the needs of the person you are helping Recognizing that we all experience bereavement differently this book introduces theory and skills which can be used in any context to address a wide range of needs The author explains the theoretical background to attachment and loss and the core skills needed to support people who have been bereaved Case studies and personal accounts illustrate key points and exercises help you examine your own experiences and attitudes in relation to loss The book also takes into account topics frequently overlooked in other texts such as sexuality spiritual responses to loss cultural influences and diversity as well as the nature of chronic and disenfranchised grief Dying Death and Grief is designed for use on a wide range of training and academic courses that prepare practitioners to work with the bereaved Professionals in a range of settings including hospitals and in the community as well as volunteers and be frienders in hospices and nursing homes will find this a useful source of guidance Brenda Mallon is a counsellor trainer and author who specialises in bereavement care She is vice chair of The Grief Centre Manchester Area Bereavement Forum

*Dealing with Death* Michael Green, Jennifer Green, 2006-05-25 *Dealing with Death* is a comprehensive and authoritative source of information for professionals on the procedures laws and cultural customs that should be observed when someone dies This completely updated and expanded second edition takes into account changes in UK law and the impact of the Harold Shipman and Alder Hey enquiries

*Initial Management of Acute Medical Patients* Ian Wood, Michelle Garner, 2012-01-25 INITIAL MANAGEMENT OF ACUTE MEDICAL PATIENTS INITIAL MANAGEMENT OF ACUTE MEDICAL PATIENTS A GUIDE FOR NURSES AND HEALTHCARE PRACTITIONERS Second Edition Initial Management of Acute Medical Patients is a clinically focused practical and contemporary guide for assessing and managing patients with acute medical conditions Suitable for all nurses and healthcare practitioners working in medical assessment units medical wards and emergency departments it presents a structured approach based on common presenting features and focuses on the first 24 hours of the patient s hospital stay The book draws on a wide range of supporting evidence and also provides the reader with sources for further reading KEY FEATURES Written predominantly by nurses for nurses this text is also suitable for a range of healthcare professionals including paramedics and nurse practitioners and anybody working in an acute care environment including primary care assessment units clinical decision units and intermediate care Designed as a quick reference text for use in clinical practice Extensively referenced throughout thus increasing its appeal to practitioners at all stages of their careers and to those who are undertaking further study Devotes two entire chapters to assessing and meeting the acute care needs of vulnerable adults i e older adults those with mental health needs and those with learning disabilities and discussing best practice in dealing with sudden death Each chapter offers clear concise and

down to earth information based on a common presenting symptom and provides practical advice supported by best evidence and the most up to date clinical guidelines Fully updated and extensively expanded to include recent guidelines and procedures

**Medical Assessment Units** John B. Taylor,Michelle Rhodes,2006-02-22 Increasing demands on acute hospital resources together with a reduction in the number of available beds has placed a greater emphasis on the need for rapid and effective assessment of patients in order to determine their need for hospital admission This has led to the widespread emergence of the specialist Medical Assessment Unit MAU This timely book provides an up to date guide to the assessment and immediate management of patients with acute medical conditions It presents a structured approach based on common presenting features and focuses on the first twenty four hours of the patient s stay in hospital In writing this book the editors have been able to draw on their own clinical experiences as a charge nurse in Accident and Emergency nursing and a sister in acute cardiology and respectively

**Learning Disabilities** Helen Atherton,Debbie Crickmore,2011-05-19 Learning Disabilities Toward Inclusion formerly edited by Bob Gates is one of the leading textbooks in this field It offers real ways to improve quality of experience for people with learning disabilities in all areas of life This new edition brings together a comprehensive and coherent collection of material from eminent authors with a wealth of professional backgrounds and roles Its contemporary focus reflects practice developments including the impact of changing policy and legislation on the nature and configuration of services The leading textbook for carers of people with learning disabilities A comprehensive overview of the field of learning disabilities care Well written accessible content Activities case studies diagrams and further resources including useful web links the embedding of key themes across chapters to draw diverse material into an integrated whole These are person centredness values the reality of practice the range of ability the range of services and national and international perspectives chapters on advocacy personal narratives and life story inclusive research risk safeguarding sensory awareness epilepsy and end of life care online case studies and activities with critical thinking questions and hot links to web resources to extend knowledge and understanding thereby facilitating learning a fully searchable customisable electronic version of the text to enable easy access and quick reference

*Stepping Into Palliative Care 1* Jo Cooper,2006 Aimed at those working in community care including doctors nurses nursing students and social workers this book covers the value of teamwork stress issues in palliative care communication ethical dilemmas transcultural and ethnic issues at the end of life and sexuality in palliative care

*Death and Dying* John F. Szabo,2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F

Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill

**Bereavement Care for Childbearing Women and their Families** Caroline Hollins Martin,Eleanor Forrest,2013-07-24 For many bereaved parents the care provided by health professionals at birth from midwives to antenatal teachers has a crucial effect on their response to a loss or death This interactive workbook is clearly applied to practice and has been designed to help practitioners deliver effective bereavement care Providing care to grieving parents can be demanding difficult and stressful with many feeling ill equipped to provide appropriate help Equipping the reader with fundamental skills to support childbearing women partners and families who have experienced childbirth related bereavement this book outlines What bereavement is and the ways in which it can be experienced in relation to pregnancy and birth Sensitive and supportive ways of delivering bad news to childbearing women partners and families Models of grieving How to identify when a bereaved parent may require additional support from mental health experts Ongoing support available for bereaved women their partners and families The impact on practitioners and the support they may require How to assess and tailor care to accommodate a range of spiritual and religious beliefs about death Written by two highly educated experienced midwifery lecturers this practical and evidence based workbook is a valuable resource for all midwives neonatal nurses and support workers who work with women in the perinatal period This book is suitable as a text for BSc and MSc courses in Midwifery BScs courses in Paediatric Nursing and for neonatal and bereavement counselling courses

**Achieving Positive Outcomes for Children in Care** R J Cameron,Seán Cameron,Colin Maginn,2009-09-10 This title looks at how achieving positive outcomes for children in care is possible when the root causes of failure are tackled

**Grief, Mourning, and Death Ritual** Jennifer Lorna Hockey,Jeanne Katz,Neil Small,2001 It does this by combining substantial reviews with shorter illustrative examples of grief mourning and death ritual as they are manifest in specific settings and with defined groups These illustrative examples include personal and institutional responses to death at different points in the life cycle and responses to different sorts of death the death of children and death in disasters for example

**Palliative Care Nursing: Principles And Evidence For Practice** Payne, Sheila,Seymour, Jane,Ingleton, Christine,2008-08-01 This textbook in palliative care nursing draws together the principles and evidence that underpins practice to support nurses working in specialist palliative care settings and those whose work

involves end of life care      **A Guide to Effective Care in Pregnancy and Childbirth** Murray Enkin,1995 All the main findings and conclusions of these publications are available here in an easily readable inexpensive and updated form The new edition is extensively revised and rewritten incorporating the results of the important evidence about the effects of care during pregnancy and childbirth that has accumulated since the first edition was published The first edition received critical acclaim because its conclusions were based on sound evidence and has become a unique reference source for evaluating care policies and practices      *Handbook of Perinatal and Neonatal Palliative Care* Rana Limbo,Charlotte Wool,Brian Carter,2019-11-11 The first resource of its kind this authoritative handbook holistically addresses the multidimensional aspects of perinatal and neonatal palliative care Written by an interprofessional team of renowned specialists it is both a text and an evidencebased reference for all members of the palliative care team This book helps individual team members forge interdisciplinary approaches to care assess current programs improve the quality of care and tailor new models of care Encompassing the perspectives of numerous multidisciplinary healthcare providers the book underscores the unique aspects of perinatal and neonatal palliative care with a focus on improving quality of life as well as comfort at the end of life It describes healthcare for neonates and pregnant mothers care and support of the family planning and decision making and effective support for grief and bereavement addressing all palliative and neonatal care settings Other chapters focus on the prenatal period after diagnosis of the expected baby s life threatening condition These include such topics as care of the mother delivering devastating news and advance care planning Each chapter contains photos figures and or tables and case studies with clinical implications and critical thinking questions Also included is an extensive listing of relevant palliative care organizations Paintings and poetry provide an artistic backdrop to the authors inspiring words Key Features Addresses a growing need for specific provider resources in neonatal palliative care Covers the clinical and emotional aspects of palliative care for babies and their families Abundant resources for effective and compassionate family centered care Case studies with critical thinking questions Accompanying video clips of healthcare and family interactions Supplemental image bank included      **Ward-based Critical Care: a guide for health professionals** Ann M Price,Dr Sally A Smith,Dr Alistair Challiner,2016-01-01 Like the original Ward based Critical Care this second edition aims to guide practitioners in the initial management of critically ill adult patients within the ward setting It should be of value to a wide range of healthcare professionals including junior doctors nurses physiotherapists and students It will also be relevant to practitioners who are moving into any setting that cares for acutely ill patients This volume has been slightly reorganised since the first edition to ensure that practical aspects are incorporated within the relevant sections The book is still structured around the ABCDE approach to assessing and managing patients as this is promoted in critical care and resuscitation care training The focus on practical examples and hot tips to aid memory of key points continues All the chapters have been updated with the most recent guidance as available at the time of writing This has meant that some chapters have required major revisions while

others have remained relatively unchanged Some new chapters have been included such as the ones on anaphylactic shock patient safety dealing with pregnant women in the ward setting and massive blood transfusion In addition each section now starts with a chapter giving an overview of the A E approach in order to provide more detail about assessing and managing those aspects of patient care This informative book contains many useful features such as clinical scenarios hot tips and practical skills and the text is richly illustrated and cross referenced throughout
