Lost Causes:

Lost Causes in and beyond Physics R.F. Streater, 2007-07-16 *Lost Causes in and Beyond Physics* deals with a selection of research topics mostly from theoretical physics that have been shown to be a dead end or continue at least to be highly controversial Nevertheless whether it is about Bohmian mechanics physics from Fisher information or the quantum theory of the brain small but dedicated research communities continue to work on these issues R F Streater renowned mathematical physicist and co author of the famous book *PCT Spin and Statistics* and all that in a series of essays describes the work and struggle of these research communities as well as the chances of any breakthrough in these areas This book is written as both an entertainment and serious study and should be accessible to anyone with a background in theoretical physics and mathematics

In Defense of Lost Causes Slavoj Žižek, 2009-10-19 In this combative major work philosophical sharpshooter Slavoj Žižek looks for the kernel of truth in the totalitarian politics of the past Examining Heidegger's seduction by fascism and Foucault's flirtation with the Iranian Revolution he suggests that these were the right steps in the wrong direction On the revolutionary terror of Robespierre Mao and the Bolsheviks Žižek argues that while these struggles ended in historic failure and horror there was a valuable core of idealism lost beneath the bloodshed A redemptive vision has been obscured by the soft decentralized politics of the liberal democratic consensus Faced with the coming ecological crisis Žižek argues the case for revolutionary terror and the dictatorship of the proletariat A return to past ideals is needed despite the risks In the words of Samuel Beckett Try again Fail again Fail better

Red States Gina Caison, 2018-10 *Red States* uses a regional focus in order to examine the tenets of white southern nativism and Indigenous resistance to colonialism in the U S South Gina Caison argues that popular misconceptions of Native American identity in the U S South can be understood by tracing how non Native audiences in the region came to imagine indigeneity through the presentation of specious histories presented in regional literary texts and she examines how Indigenous people work against these narratives to maintain sovereign land claims in their home spaces through their own literary and cultural productions As Caison demonstrates these conversations in the U S South have consequences for how present day conservative political discourses resonate across the United States Assembling a newly constituted archive that includes regional theatrical and musical performances pre Civil War literatures and contemporary novels Caison illuminates the U S South's continued investment in settler colonialism and the continued Indigenous resistance to this paradigm Ultimately she concludes that the region is indeed made up of red states but perhaps not in the way readers initially imagine

Open Borders to a Revolution Jaime Marroquin Arredondo, Adela Pineda Franco, Magdalena Mieri, 2013-10-30 *Open Borders to a Revolution* is a collective enterprise studying the immediate and long lasting effects of the Mexican Revolution in the United States in such spheres as diplomacy politics and intellectual thought It marks both the bicentennial of Latin America's independence from Spain and the centennial of the Mexican Revolution an anniversary with significant relevance for American history The Smithsonian

partnered with several institutions and organized a series of cultural events among them an academic symposium whose program was envisioned and developed by the editors of this volume *Creating an Archetype The Influence of the Mexican Revolution in the United States* The symposium gathered scholars who engaged in conversation and debate on several aspects of U S Mexico relations including the Mexican American experience This volume consolidates the results of those intellectual exchanges adding new voices and providing a wide ranging exploration of the Mexican Revolution *Idealism, Pragmatism, and Feminism* John J. Kaag, 2011-01-01 *Idealism Pragmatism and Feminism* provides an account of the life and writings of Ella Lyman Cabot 1866 1934 a woman who received formal training but not formal recognition in the field of classical American philosophy It highlights the themes of idealism pragmatism and feminism as they emerged in the course of career as an educational reformer and ethicist that spanned nearly four decades Cabot s writings developed in graduate seminars at Harvard and Radcliffe at the turn of the century complement and in many cases anticipate the thinking of the fathers of the American philosophical cannon Charles Sanders Peirce Josiah Royce William James and John Dewey Her formal philosophical writing focuses on the concepts of growth creativity and the moral imagination a fact that is especially interesting given that these concepts are developed by a woman who faced serious obstacles in her personal and intellectual development Indeed these concepts are not merely philosophical ideals but practical tools that Ella Lyman Cabot used to negotiate the gender roles and intellectual marginalization that she faces at the turn of the century The discipline of philosophy was very slow to incorporate the insights of women into its self definition An analysis of the writings of Ella Lyman Cabot reveals this point but also the pointed ways in which she sought to express her genuinely creative insights

Pragmatism and Objectivity Sami Pihlström, 2017-02-17 *Pragmatism and Objectivity* illuminates the nature of contemporary pragmatism against the background of Rescher s work resulting in a stronger grasp of the prospects and promises of this philosophical movement The central insight of pragmatism is that we must start from where we find ourselves and deflate metaphysical theories of truth in favor of an account that reflects our actual practices of the concept Pragmatism links truth and rationality to experience success and action While crude versions of pragmatism state that truth is whatever works for a person or a community Nicholas Rescher has been at the forefront of arguing for a more sophisticated pragmatist position According to his position we can illuminate a robust concept of truth by considering its links with inquiry assertion belief and action His brand of pragmatism is objective and organized around truth and inquiry rather than other forms of pragmatism that are more subjective and lenient The contingency and fallibility of knowledge and belief formation does not mean that our beliefs are simply what our community decides or that truth and objectivity are spurious notions Rescher offers the best chance of understanding how it is that beliefs can be the products of human inquiry yet aim at the truth nonetheless The essays in this volume written by established and up and coming scholars of pragmatism touch on themes related to epistemology philosophy of mind philosophy of science and ethics *Woman in Lars von Trier's*

Cinema, 1996-2014 Ahmed Elbeshlawy, 2016-10-11 This book discusses the figure of Woman in Lars von Trier's distinctive cinematic productions from 1996 to 2014. It takes the notorious legacy of violence against women in von Trier's cinema beyond the perceived gender division elevating the director's image above being a mere provocateur. By raising fundamental questions about woman sexuality and desire, Elbeshlawy shows that Trier's cinematic Woman is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture. But this attempt is perennially ill-fated. And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance, elevating them above both commendations and condemnations of feminist discourse.

Causes of Absence for Men and for Women in Four Cotton Mills Ethel Lombard Best, 1929 Nagarjuna and the Art of Negation Mathew

Varghese, 2020-12-01 Reading the philosophy of Nagarjuna in retrospect, his method of Nagarjuna is variously explained in this book. How the application of tetralemma (four value structure) catuskoti would give us enough resources to expand our thoughts and how that could help us negate the binary either/or structure of thought that demands theoretical postulations. Notably, the art of logical negation used by Nagarjuna, employing neither nor structure, would help us understand the Middle Path (Madhyamika) philosophy clearly. Most of the philosophies use the structure of two value logical interpretations to introduce their metaphysics and ethics. Metaphysical conception of soul/God is the basis of virtue ethics centred on transcendentals of goodness, truth, beauty, unity, justice, being, etc. of the classical Greeks, later being followed by Christians, Jews, and Islamic thinkers. The conception of atman/Brahman is the foundation of Vedic philosophers' understanding of transcendentals as truth, sat, consciousness, cit, and bliss, ananada. Nagarjuna, on the other hand, employs negative dialectics to confute the logical structure of either/or that demands metaphysical concepts and, by employing the four value logical structure, he introduces the transcendentals as wisdom and compassion. This book uses Nagarjunian art of negation to reread his philosophy differently to discern the concept of emptiness (sunyata) as the co-dependent evolution of various elements of the subjective self and the elements of objective experiences in the dominion of the subjective self and the elements of objective experiences in the dominion of the subjective self; therein, it is possible to redefine no-soul (nairatmya) as self-being and dominion of subjectivity for replacing a metaphysical postulation and the transcendentals as wisdom and compassion.

Intellectual Resistance and the Struggle for Palestine M. Abraham, 2014-08-07 By positioning the late Edward Said's political interventions as a public intellectual on behalf of Palestinian populations living under Israeli occupation as a form of intellectual resistance, Abraham moves to consider forms of physical resistance, seeking to better understand the motivations of those who choose to turn their bodies into weapons.

The Promise and Perils of Populism Carlos de la Torre, 2015-01-13 From the protesters in Cairo's Tahrir Square to the Tea Party in the United States to the campaign to elect indigenous leader Evo Morales in Bolivia, modern populist movements command international attention and compel political and social change. When citizens demand power to the people, they evoke corrupt politicians, imperialists, or oligarchies that have appropriated

power from its legitimate owners These stereotypical narratives belie the vague and often contradictory definitions of the concept of the people and the many motives of those who use populism as a political tool In *The Promise and Perils of Populism* Carlos de la Torre assembles a group of international scholars to explore the ambiguous meanings and profound implications of grassroots movements across the globe These trenchant essays explore how fragile political institutions allow populists to achieve power while strong institutions confine them to the margins of political systems Their comparative case studies illuminate how Latin American African and Thai populists have sought to empower marginalized groups of people while similar groups in Australia Europe and the United States often exclude people whom they consider to possess different cultural values While analyzing insurrections in Latin America advocacy groups in the United States Europe and Australia and populist parties in Asia and Africa the contributors also pose questions and agendas for further research This volume on contemporary populism from a comparative perspective could not be more timely and scholars from a variety of disciplines will find it an invaluable contribution to the literature

Loyalty to Loyalty: Josiah Royce and the Genuine Moral Life

Mathew A. Foust, 2012-07-02 This work engages Royce's moral theory revealing how loyalty rather than being just one virtue among others is central to living a genuinely moral and meaningful life Foust shows how the theory of loyalty Royce advances can be brought to bear on issues such as the partiality/impartiality debate in ethical theory

Zizek: Paper Revolutionary

Marko Zlomislíć, 2018-05-18 In this new book Marko Zlomislíć argues that Slavoj Žižek's work does not contain any sort of radical emancipatory project especially as it passes through the ideology of communism and Lacanian psychoanalysis The evidence for the failure of communism is vast and includes the more than six hundred mass graves recently located in Žižek's homeland of Slovenia Zlomislíć demonstrates that the way out of the capitalist dilemma is not a repetition of communism but a return to the late medieval notion of *haecceity* or individual *thisness* that was rejected by modernity *Haecceity* or the indescribable and indefinite here and now of the person shows that the late medieval Franciscans were already postmodernists It is no wonder that the totalitarianism of the modernist Hegel is embraced by thinkers such as Žižek Badiou Hardt Negri and Laclau and was already rejected by Leibniz Kierkegaard Nietzsche Levinas Deleuze and Derrida This important book shows that Žižek's work must be rejected because it does not uphold the dignity worth and uniqueness of the person

History from Loss

Marnie Hughes-Warrington, Daniel Woolf, 2023-05-31 *History from Loss* challenges the common thought that history is written by the winners and explores how history makers in different times and places across the globe have written histories from loss even when this has come at the threat to their own safety A distinguished group of historians from around the globe offer an introduction to different history makers' lives and ideas and important extracts from their works which highlight various meanings of loss from physical ailments to social ostracism exile to imprisonment and from dispossession to potential execution Throughout the volume consideration of the information bubbles of different times and places helps to show how information has been weaponized to cause harm In this way the text helps to put current

debates about the biases and weaponization of platforms such as social media into global and historical perspectives In combination the chapters build a picture of history from loss which is global sustained and anything but a simple mirror of history made by victors The volume also includes an Introduction and Afterword which draw out the key meanings of history from loss and which offer ideas for further exploration History from Loss provides an invaluable resource for students teachers and general readers who wish to put current debates on bias the politicization of history and threats to history makers into global and historical perspectives The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

War Omnibus: Volume I History Nerds, Step into the heart of history with the War Omnibus Volume I from History Nerds a sweeping exploration of six monumental wars that reshaped the world From Napoleon's rise and fall in the Napoleonic Wars to Serbia's fierce fight for independence in the Serbian Revolution and the epic clashes of the Crimean War and American Civil War this collection traces the struggles that defined nations Dive into the global catastrophes of World War 1 and World War 2 where industrialized warfare forever altered the human experience Perfect for history enthusiasts this omnibus offers a gripping human centered narrative of warfare's greatest moments

Transforming Faith Joshua Leonard Daniel, 2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What's necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In Transforming Faith Joshua Daniel offers a fresh reading of H. Richard Niebuhr's theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel's reconstructive interpretation is the human's existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

Local/Global Narratives, 2016-08-09 Over the past decade and a half Germany has experienced a period of political and cultural turbulence which many have attributed to the combined challenges of unification and globalisation In response to growing exposure to global markets politics and migration debates about identity have increasingly been re-nationalised At the same time there has been a notable reappraisal in Germany and in German Studies of the regional and global as spaces for the construction of identity This volume sets out to explore these complex and at times contradictory trends focusing in particular on developments in Germany since the 1970s although chapters treating earlier periods are also included The volume brings together British Irish German Canadian and American scholars working in the field and resulted from a conference organised by Women in German Studies at the University of

Bath The first section is primarily concerned with the specifically German concept of locality known as Heimat and its changing relationship with the global Included are explorations of the writings of Kafka Bachmann Johnson Sell Wolf Brinkmann and Jelinek amongst others as well as films by Schlöndorff and Steyerl The second section focuses on the impact of the global on institutions and rituals such as commemoration memorialisation and architecture which have traditionally been influential in shaping national self images Overall this volume concludes that the nature of the relationship to the local has fundamentally changed under the impact of globalisation Women's Wartime Hours of Work Margaret Kay

Anderson,1947 The Spirit of American Philosophy John Edwin Smith,1983-01-01 This revised edition of John E Smith's classic details the phenomenal growth in American philosophy in the years since the book first appeared Through the addition of a new chapter and the readdressing of earlier material Smith advances his reflections on the present decade The book also considers the impact of British linguistic philosophy and other currents of thought abroad on classical American philosophy Tasker Tusker Tasker Bill Reed,2015-01-14 John Tasker is a divided but enjoined man Physically he is running from the law while hunting down his own father just as his father used to track down the wild tuskers in Sri Lanka At the same time mentally he is tracking down his murderous brother's enemies imaginably or not with a deadly efficiency Adding to his confusion is how his indolent lawyer's job in the Attorney General's Department has itself suddenly become fraught with danger for his own personal safety The resultant clash that erupts between his fervently adopted Australia and his fervently rejected Sri Lanka isn't helping the mental chaos he is thrown into on an otherwise perfectly acceptable day One trouble is his state of being so enjoined Through his own mind's eye he sees how his own milieu has been drawing him inevitably towards the cliff's edge Also through his and his brother's mind's eye he sees too much of the terrorizing worldwide Tamil organizations and from a close up much too gory And through his and his father's mind's eye he sees no good nurture purpose to his existence except the sighing and dying and the leavings from him He can see how it's all so willfully like his father's wild snared tuskers endeavouring to escape trying to drag the lines dragging the antlered sambhur's skulls through the hopelessly impossible bush On top of all this he has the living scaffold of the Sri Lankan Inspector Ekanayake now and ever looming over him The Inspector doesn't care a hoot about any mind's eye or mind's eyes bloodying hell sorry He only cares for the hunt's conclusion and how John Tasker should know it What is the Inspector doing in Canberra and asking so many pointed questions What might he know about the shadowy and murderous Tasker twin brother with apparently the justified alias of Tusker All John Tasker can now see is how his world and the manic world of his fearsome brother are being forced to converge so suddenly and so bizarrely This is the first title in the ongoing Inspector Ekanayake series
