Lost Moons:

The Lost Moons of Venus Toby Wilde,2015-03-11 It is Britain s darkest hour the desperate winter of 1940 standing alone against the all conquering German army It is even more so for a dazed young man from the 21st century who is pulled from the rubble of a bombed house at the height of the Blitz But that s only the start of his troubles in this alien world As a WWII history buff his knowledge of the war should be a godsend yet it proves a curse that changes everything Aware now of the military disasters ahead and the post war loss of the Empire Churchill s bulldog spirit wavers His political foes seize the opportunity to topple him from power determined to sue for peace with Germany If Churchill is ousted to leave Hitler unopposed civilisation will be plunged into a new Dark Age under the evil tyranny of the Nazi jackboot In a race literally against time the young man from the future tries to right the wrong but it could take more than one lifetime **Lost Moons**

Haas, 2025-01-07 Explores a wide variety of anomalous structures on Mars s surface that display a high degree of geometric and pictographic design Examines sites such as the Elysium pyramid famously described by Carl Sagan and city complexes in the Nepenthes Mensae and Atlantis Chaos regions Argues that Mayan creation stories of a Star War and Sumerian myths of the Anunnaki provide ancient evidence for the existence of a Martian culture Exploring evidence

of a lost Martian civilization and its contact with Earth investigator George Haas examines a wide variety of anomalous structures and geoglyphs on Mars's surface that display a high degree of geometric and symbolic design that reveal an ancient bond between Earth and Mars. He takes a closer look at Carl Sagan's famous pyramid of Elysium including high resolution images released after Sagan's death. Investigating a pair of city complexes in the Nepenthes Mensae region of the Red Planet Haas shows how the settlements include geometric formations of a five sided star and a hexagonal pyramid along with geoglyphic formations representing a dove a killer whale and a bat. Examining the Libya Montes region he reveals a keyhole shaped formation identical in design to ancient tombs built in Japan. In the Atlantis Chaos region he investigates the remains of an ancient city nestled along a dead lake an urban like array of gridded broken walls and shattered foundations. He then explores a detailed parrot shaped geoglyph in the large impact crater known as Argyre Basin that four veterinarians found to possess 22 points of anatomical correctness with terrestrial parrots. Providing an ancient Mesoamerican connection to the civilizations of Mars Haas looks at a lesser known Mayan creation story about a Star War that occurred 800 000 years ago. He reveals parallels between this story and ancient Sumerian stories of the Anunnaki occupation of Earth and Mars as documented by Zecharia Sitchin. Haas also shows how there is a direct correlation between the ruins on Mars and the art and architecture of Mesoamerican cultures providing clear evidence of a long disappeared Martian civilization that we are only now rediscovering.

The Lost Art of Reading Nature's Signs Tristan Gooley, 2015-07-31 Turn Every Walk into a Game of Detection When writer and navigator Tristan Gooley journeys outside he sees a natural world filled with clues. The roots of a tree indicate the sun's direction the Big Dipper tells the time a passing butterfly hints at the weather a sand dune reveals prevailing wind the scent of cinnamon suggests altitude a budding flower points south. To help you understand nature as he does Gooley shares more than 850 tips for forecasting tracking and more gathered from decades spent walking the landscape around his home and around the world. Whether you're walking in the country or city along a coastline or by night this is the ultimate resource on what the land sun moon stars plants animals and clouds can reveal if you only know how to look.

The Song of the Sad Nightingale Steve Adatto, 2023-12-04 This book is a sequence poem of 505 parts. It took me several years to write it. The poem is an old idea that I had sometime a long time ago. It was inspired by some music that I used to listen to called Song of the Nightingale. The idea of the universe being so dark and so cold and always being in the darkness of the nighttime made me wonder a bit for the nightingale sings its songs mostly maybe only by night. So the universe could be a haunted place that nightingales wander throughout in the darkness and guarding and watching over everything where it can ultimately rule the stars and moons as it supposedly should do. There are also midnight nightmares that wander throughout the stars in these enormous gatherings of birds and horses singing for someday the universe will come to its conclusion and it's all mixed in with basic modern day science aspects and things to try to be something new and it tries to explain the universe with songs of nightingales and nightmares ravens and crows and mockingbirds mixed in with the wonder of where

the universe has really come from From the darkness it all has come and to the darkness it all shall return And from nowhere it has come to nowhere it will return As Einstein says I want to know how God made the universe I see my life in terms of music Alber Einstein **ALT•4•1** Michael A.
