beliefs preoccupations motifs and values of Weimar Classicism In Germany Weimar Classicism roughly the period from Goethe's return to Germany from Italy in 1788 to the death of his friend and collaborator Schiller in 1805 is widely regarded as an apogee of literary art But outside of Germany Goethe is considered a Romantic and the notion of Weimar Classicism as a distinct period is viewed with skepticism This volume of new essays regards the question of literary period as a red herring Weimar Classicism is best understood as a project that involved the ambitious attempt not only to imagine but also to achieve a new quality of wholeness in human life and culture at a time when fragmentation division and alienation appeared to be the norm By not succumbing to the myth of Weimar and its literary giants but being willing to explore the phenomenon as a complex cultural system with a unique signature this book provides an account of its shaping beliefs preoccupations motifs and values Contributions from leading German British and North American scholars open up multiple interdisciplinary perspectives on the period Essays on the novel poetry drama and theater are joined by accounts of politics philosophy visual culture women writers and science The reader is introduced to the full panoply of cultural life in Weimar its accomplishments as well as its excesses and follies Emancipatory and doctrinaire by turns the project of Weimar Classicism is best approached as a complex whole Contributors Dieter Borchmeyer Charles Gair Gail Hart Thomas Saine Jane Brown Cyrus Hamlin Roger Stephenson Elisabeth Krimmer Helmut Pfotenhauer Benjamin Bennett Astrida Orle Tantilillo W Daniel Wilson Simon J Richter is Associate Professor of German at the University of Pennsylvania **W. Sebald's Hybrid Poetics Lynn L. Wolff, 2014-04-02 This book offers a new critical perspective on the perpetual problem of literature's relationship to reality and in particular on the sustained tension between literature and historiography The scholarly and literary works of W G Sebald 1944-2001 serve as striking examples for this discussion for the way in which they demonstrate the emergence of a new hybrid discourse of literature as historiography This book critically reconsiders the claims and aims of historiography by re-evaluating core questions of the literary discourse and by assessing the ethical imperative of literature in the 20th and 21st centuries Guided by an inherently interdisciplinary framework this book elucidates the interplay of epistemological aesthetic and ethical concerns that define Sebald's criticism and fiction Appropriate to the way in which Sebald's works challenge us to rethink the boundaries between discourses genres disciplines and media this work proceeds in a methodologically non-dogmatic way drawing on hermeneutics semiotics narratology and discourse theory In addition to contextualizing Sebald within postwar literature in German the book is the first English language study to consider Sebald's oeuvre as a whole Of interest for Sebald experts and enthusiasts literary scholars and historians concerned with the problematic of representing the past
