The Quintinshill Conspiracy Jack Richards,Adrian Searle,2013-10-01 It was the railway s Titanic A horrific crash involving five trains in which 230 died and 246 were injured it remains the worst disaster in the long history of Britain s rail network The

location was the isolated signal box at Quintinshill on the Anglo Scottish border near Gretna the date 22 May 1915 Amongst the dead and injured were women and children but most of the casualties were Scottish soldiers on their way to fight in the Gallipoli campaign Territorials setting off for war on a distant battlefield were to die not in battle but on home soil victims it was said of serious incompetence and a shoddy regard for procedure in the signal box resulting in two signalmen being sent to prison Startling new evidence reveals that the failures which led to the disaster were far more complex and wide reaching than signalling negligence Using previously undisclosed documents the authors have been able to access official records from the time and have uncovered a highly shocking and controversial truth behind what actually happened at Quintinshill and the extraordinary attempts to hide the truth As featured in Dumfries Galloway Life magazine January 2014 [The Real World of Sherlock](#) B.J. Rahn,2014-11-15 A fascinating glimpse into the real life Victorian inspirations behind the Sherlock Holmes stories Discover the men who inspired the timeless character [Peterhead](#) Robert Jeffrey,2013-09-24 Robert Jeffrey author of the bestselling Barlinnie Story and other true crime books now tells the remarkable story of the infamous Peterhead Prison in Scotland's far north east Built in the 1880s as part of an ambitious humanitarian plan to use convict labour to construct a harbour of refuge on the town's wild storm battered coast it became what some call Scotland's gulag A cold and brutal place it has held down the years some of Scotland's most violent criminals and most infamous prisoners convicted of the most heinous of crimes In the early days convicts were controlled by men as hard as their charges The wardens carried swords and were quick to use them if necessary And when convict labour was used to build the harbour they worked with rifles trained on them at all times Peterhead's wardens were clearly not to be crossed Throughout the history of the prison riots and breakouts have made headlines with the SAS involved in restoring order at one point Peterhead also had the reputation of being so secure that escape was impossible with the notable exception of Johnny Ramensky the safeblower turned war hero who went back to his criminal ways and spent more than forty years of his life in prison many of them in Peterhead He became the first inmate to escape and repeated the exercise four more times often for his own satisfaction and amusement each time being recaptured after a short taste of freedom Peterhead Scotland's Toughest Prison tells the remarkable inside story of a truly grim institution with a fearsome reputation **Glasgow's Black Heart** Douglas Skelton,2011-03-11 Glasgow is the largest city in Scotland It is a city of culture of impressive architecture enterprise and endeavour and is one of warm hearted generous people But it also has a dark side Beneath the busy streets the Victorian sandstone and urban trendiness lies a black heart that beats in rhythm with the roar of the traffic and the echo of footsteps on concrete It is a black heart pumped by greed and lust violence and murder And it has beaten since the city first sprang up on that dear green place on the banks of the Molendinar Burn This is the epic story of Glasgow crime Beginning in 1624 when the Tolbooth was built at Glasgow Cross to house the courts and town jail author Douglas Skelton covers four centuries of Glasgow's hidden history tracing the formation of the first paid police force in Britain the Black Assizes of the circuit court

and the formation of the city's own High Court of Justiciary Here you will find the pimps and pushers gangsters and gangleaders rioters and robbers who flooded the veins of the city Famous felons rub shoulders with their less notorious but equally vicious counterparts Here also are the thief takers cops lawyers and judges who tried to stem the gushing flow some with more success than others These stories may not be what the City Fathers would like to see on Glasgow's CV but they are as much a part of its traditions and its legacy as the fish the bell and the tree *A World to Gain* Thomas Toughill,2004

There are only two possibilities either Berlin will be capital of the world or Washington Adolf Hitler November 1941 World War II cannot be understood fully unless it is seen for what it was a struggle for world domination between the United States and Nazi Germany Based on both Allied and German sources Toughill's firsthand research examines the nature of that rivalry and for the first time provides convincing answers to many unanswered questions about the war For example Why did Hitler declare war on the United States What is the truth behind the Allies policy of unconditional surrender Why did the Germans stand behind Hitler in the face of overwhelming odds Why did the Allies leave Berlin to Soviet dictator Stalin At the center of this absorbing book is U S President Franklin D Roosevelt the man who helped rid the world of a great evil and in the process made the U S the most powerful country on earth all at virtually no cost The means for achieving this extraordinary feat is examined in fascinating detail using new evidence including forged Cabinet Papers so startling that it will force a major reappraisal of World War II Toughill gives particularly close attention to Roosevelt's advisors William Wild Bill Donovan the President's spymaster who cunningly helped to push America into the war Douglas Miller who publicly called on America to attack Germany from the West and George Marshall the President's Chief of Staff who urged a complete military defeat of Germany Understanding the exact nature of what happened during that dreadful conflict is key to ensuring that Europe never suffers such a catastrophe again and this book takes an essential step toward fulfilling that task Roosevelt justified his wartime policies on the grounds that they offered a reasonable guarantee of world peace for fifty years Those fifty years have passed and world peace continues to elude us *A World to Gain* is required reading for understanding the personalities and reasoning behind the U S involvement in World War II **The Politics of the Rope** Neville Twitchell,2012 The campaign to abolish capital punishment 1955-1969 **Glasgow's East End** Nuala Naughton,2014-10-09 From bishops to battlefields barrowboys to business tycoons Nuala Naughton brings to life some of the characters and events that have shaped Glasgow's East End since the city's founder St Mungo first set eyes on the dear green place This entertaining lighthearted account looks at the legends behind the city's coat of arms and the foundation of the city as an ecclesiastic centre of excellence and respected seat of learning It also offers a colourful insight into tenement life with anecdotes and interviews by born and bred Eastenders the Battle of George Square in 1919 when Prime Minister Churchill waged war on unionized workers the make do and mend community and the story behind silk stockings made from used teabags and an eyebrow pencil during the Second World War the dancin the saints the sinners the City of the Dead and how the Barrowland ballroom came to the attention of

the German high command and the war propagandist Lord Haw Haw From medieval Glasgow to modern times this fascinating book offers a pick n mix of fact and fiction myths and miracles surrounding the rich and sometimes turbulent history of Glasgow s East End *The Essential Mystery Lists* Roger M Sobin,2011-09-30 For the first time in one place Roger M Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented He has also included many of the best of lists by more than fifty of the most important contributors to the genre Mr Sobin spent more than two decades gathering the data and lists in this volume much of that time he used to recheck the accuracy of the material he had collected Several of the best of lists appear here for the first time in book form Several others have been unavailable for a number of years Of special note are Anthony Boucher s Best Picks for the Year Boucher one of the major mystery reviewers of all time reviewed for The San Francisco Chronicle Ellery Queen Mystery Magazine and The New York Times From these resources Mr Sobin created Boucher s Best and Important Lists to Consider lists that provide insight into important writing in the field from 1942 through Boucher s death in 1968 This is a great resource for all mystery readers and collectors Winner of the 2008 Macavity Awards for Best Mystery Nonfiction **Teller of Tales** Daniel Stashower,2025-10-16 Winner of the 1999 Edgar Award for Best Biographical Work this is an excellent biography of the man who created Sherlock Holmes David Walton The New York Times Book Review This fresh compelling biography examines the extraordinary life and strange contrasts of Sir Arthur Conan Doyle the struggling provincial doctor who became the most popular storyteller of his age From his youthful exploits aboard a whaling ship to his often stormy friendships with such figures as Harry Houdini and George Bernard Shaw Conan Doyle lived a life as gripping as one of his adventures Exhaustively researched and elegantly written Daniel Stashower s Teller of Tales sets aside many myths and misconceptions to present a vivid portrait of the man behind the legend of Baker Street with a particular emphasis on the Psychic Crusade that dominated his final years the work that Conan Doyle himself felt to be the most important thing in the world The Truth about Oscar Slater William Park,1926 Murderers' Row Robin Odell,Wilfred Gregg,2011-10-30 Criminologist Robin Odell has compiled this gruesome gallery of cases from all over the world revealing the growth in serial slayings contract killings and middle class murders and investigating what motivates people to commit the ultimate crime As well as gangsters and ordinary felons the book includes doctors millionaires housewives children lawyers accountants officers and gentlemen who have succumbed to the killing instinct Behind the sensational names concocted by the tabloid press Boston Strangler Dracula Killer Night Stalker Granny Killer lurk real murderers committing acts of violence in circumstances often more bizarre than fiction Arranged in an easy to use A Z format the book contains over 500 cases from serial killers such as Dennis Nilsen and Ted Bundy to those such as Jeremy Bamber and Steven Benson who dispatched their parents for money from murderous New Zealand teenagers whose story made a successful film to the many doctors and nurses who took life instead of saving it from unsolved murders such as the murder of Little Gregory in France to the paid assignments of John Wayne
